RATE ADJUSTMENT MECHANISM PROCEDURE

KEDNY and KEDLI will implement a Rate Adjustment Mechanism ("RAM") beginning in Rate Year One. The purpose of the RAM is to consolidate certain deferral account balances into a single surcharge/credit for recovery from or refund to customers.

1.0 Eligible Deferral Accounts

The deferral balances as of March 31st of each year for the following accounts will be eligible for inclusion in the RAM.

i. Property Taxes[1];
ii. Energy Affordability Program ("EAP")[2]; and
iii. Exogenous Costs (but excluding costs related to pending Pipeline and Hazardous Materials Safety Administration rulemakings discussed in subsection (i) of the Exogenous Costs deferral, as such costs are subject to a separate recovery mechanism discussed in that section).[3]

(Collectively, the "Eligible Deferral Accounts").

For accounting purposes, the Eligible Deferral Accounts will continue to be maintained and accounted for in their respective accounts in the general ledger. As of March 31st of each year, the deferral balances in the Eligible Deferral Accounts will be reclassified and combined into a new general ledger account. The net deferral balance in this account will be reflected in the RAM for surcharge or sur-credit each Rate Year subject to the annual cap listed in Section 2.0 below.

In future proceedings, KEDNY and KEDLI may propose different deferral accounts for inclusion in in the RAM.

2.0 Annual RAM Recovery/Return Limits

In Rate Year One, the RAM will include the deferral balances for the Eligible Deferral Accounts as of March 31, 2024, and be recovered/credited during the 12-month period July 1, 2024 through June 30, 2025.

The RAM is subject to an annual cap of 2.00 percent of KEDNY and KEDLI's respective actual operating revenues for the prior calendar year (operating revenues as reported in the Public Service Commission ("PSC") Annual Report, which excludes ESCO commodity revenues) and be recovered/credited during the collection period July 1 through June 30 of each Rate Year.

---

[1] *See* Section IV.8.15 of the Joint Proposal.
[2] *See* Section IV.8.1.2 of the Joint Proposal.
[3] *See* Section IV.8.1.3 of the Joint Proposal.

3.0 RAM Allocation

The annual recovery/credit amounts reflected in the RAM will be allocated to the service classifications based on the following allocators: Property Taxes will be based on the General Tax allocator (Plant Based) and EAP will be based on the Total Revenue allocator. If there are Exogenous Costs to be recovered through the RAM, the appropriate allocator will be determined based on the nature of the costs to be recovered.

4.0 RAM Compliance Filing and Review Process

In Rate Year One, KEDNY and KEDLI will file a statement surcharge before the effective date setting forth the amount of the RAM surcharge/credit and including the calculations.

Beginning in Rate Year Two, by June 1st of each year, KEDNY and KEDLI will make a compliance filing with the Commission. The filing will include the deferral balances to be recovered/refunded, allocation of amounts to be recovered/refunded from/to each service classification, and the per therm unit rate to be recovered/refunded during the collection period. By June 15th of each year, the Companies will convene an informational meeting either in person or via teleconference of interested parties to these proceedings to review the Companies' calculation of the RAM.

In the event Staff or any interested party to these proceedings objects to the calculation of the RAM, Staff or such party shall notify the Companies and the parties in writing. The Companies will respond in writing addressing the objection. If Staff or other such party believes its concerns were not fully addressed by the Companies' response, Staff or such party may submit written comments to the Commission.

In the event of a dispute regarding the calculation of the annual RAM, the parties will use their best efforts to resolve the dispute within 120 calendar days of the Companies' response. The parties agree to utilize the Commission's dispute resolution process to resolve any contested matters. If the parties are unable to resolve any remaining differences, the parties agree to present such differences to the Commission for resolution.

RAM amounts will be subject to true-up and reconciliation, including carrying costs.

The implementation of the RAM shall not limit Staff's right to audit the deferred costs included by each Company in their respective RAMs.

10 Based on results of the Joint System Model, the Parties have determined that, for the period from *December 1, 2022*

11 As between KEDNY and KEDLI:

12 Exchange Point	Delivering Party	Receiving Party	Expected Flow when Total Flow from KEDLI
13 Cambria	KEDLI	KEDNY	6,304.9
14 BQI	KEDNY	KEDLI	356.7
