Deferral of Variable Pay Expense
($000's)

		Rate Year Ending March 31, 2025	Rate Year Ending March 31, 2026	Rate Year Ending March 31, 2027
1	Actual Expense	$ 11,000.0	$ 13,000.0	$ 12,000.0
2	Rate Allowance	$ 11,972.0	$ 12,438.4	$ 12,920.7
3	Amount Deferred to Customers	$ 972.0	$ -	$ 920.7

If the actual expense is greater than the rate allowance, there is no additional recovery from customers.
This is a downward only reconciliation.

Line Notes

1 Input Actual costs - Under the Company's management variable pay program (Annual Performance Plan) the evaluation period is on a fiscal year basis ending March.
Variable pay expense is accrued monthly, with the final accrual in March reconciling the annual variable pay total to the expected pay out in June.
2 Forecasted Rate Year and Data Years Variable Pay Expense
3 Line 2 less Line 1 (if Line 2 is greater than Line 1)

1) Revenue requirement assumes capital expenditures are placed in-service in the month spent.
2) Depreciation is based on existing composite depreciation rates for Meters/Hse Reg, based on 12/31/2022 plant balances weighted for capex forecast.
3) Utilizes pre-tax WACC by fiscal year with a ROE of 9.35%
4) The FY 2025 incremental/under spend will be rolled forward to the FY 2026, and FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
5) The FY 2026 incremental/under spend will be rolled forward to the FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.

The Brooklyn Union Gas Company d/b/a National Grid NY
Revenue Requirement Impact - Inside Meter Relocations
For the Rate Years Ending March 31, 2025, March 31, 2026, and March 31, 2027
One Way Downward Tracker Mechanism Example
($000's)

	CAPEX Forecast Allowed in Rates			CAPEX Assumed Actual Results			CAPEX Difference		
Example Regulatory Liability	**FY2025**	**FY2026**	**FY2027**	**FY2025**	**FY2026**	**FY2027**	**FY2025**	**FY2026**	**FY2027**
Meter Work - Meter Relocation	2,775	5,717	11,776	2,000	6,000	11,000	(775)	284	(776)
							-	-	-
							-	-	-
							-	-	-
Total KEDNY - CAPEX Forecast	$ 2,775	$ 5,717	$ 11,776	$ 2,000	$ 6,000	$ 11,000	$ (775)	$ 284	$ (776)

	Example Forecast Allowed in Rates				Revenue Requirement Actuals				Revenue Requirement Difference - Regulatory Liability			
Revenue Requirement:	**FY2025**	**FY2026**	**FY2027**	**3 Year Cumulative**	**FY2025**	**FY2026**	**FY2027**	**3 Year Cumulative**	**FY2025**	**FY2026**	**FY2027**	**3 Year Cumulative**
Pre-Tax WACC	8.72%	8.81%	9.01%		8.72%	8.81%	9.01%					
Average Ratebase	$ 1,388	$ 7,021	$ 14,463		$ 1,000	$ 6,000	$ 14,500					
Gas Meters & House Regulators Depreciation Rate	3.01%	3.14%	3.27%		3.01%	3.14%	3.27%					
Return on Average Ratebase	$ 121	$ 619	$ 1,304		$ 87	$ 529	$ 1,307					
Depreciation Expense	$ 42	$ 177	$ 470		$ 30	$ 157	$ 441					
Total Revenue Requirement Impact	$ 163	$ 796	$ 1,774	$ 2,733	$ 117	$ 686	$ 1,749	$ 2,552				$ (181)

Example Regulatory Liability 3 Year Cumulative Actual Revenue Requirement is lower than the Rate Allowance; regulatory liability recorded for amounts due to customer

Downward only Reconciliation 3 Year Cumulative Actual Revenue Requirement higher than the Rate Allowance; no amounts due from customer

Net Utility Plant and Depreciation Expense Mechanism The Inside Meter Relocation tracker works in Conjunction with Net Plant-Downward Tracker Mechanism as follows:
If the Net Plant/Depreciation Tracker results in a liability greater than or equal to the Inside Meter Relocation liability, then 100% of the Inside Meter Relocation liability is included in the Net Plant/Depreciation Tracker liability deferral
If the Net Plant/Depreciation Tracker results in a liability that is less than the Inside Meter Relocation liability, then the Total deferral for the Net Plant/Depreciation and Inside Meter Relocation Trackers is equal to the Inside Meter Relocation liability less the Net Plant/Depreciation Tracker liability

Note Actual Revenue Requirement will assume capital expenditures are placed in-service in the month spent.

.

1) Revenue requirement assumes capital expenditures are placed in-service in the month spent.
2) Depreciation is based on existing composite depreciation rate for mains and services based on 12/31/2022 plant balances.
3) Utilizes pre-tax WACC by fiscal year with a ROE of 9.35%
4) The FY 2025 incremental/under spend will be rolled forward to the FY 2026 and FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
5) The FY 2026 incremental/under spend will be rolled forward to the FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.

The Brooklyn Union Gas Company d/b/a National Grid NY
Example of CSC Tracker and Net Utility Plant Reconciliation Mechanism
Net Utility Plant/Depreciation Tracker is a One Way Downward Mechanism
($000's)

Example 1

Net Plant/Depreciation Tracker (includes CSC)	Under	1) Record Net Utility Plant Regulatory Liability
CSC Net Plant/Depreciation Tracker	Under	2) Record 10% CSC Revenue Requirement Net Plant Savings as a Regulatory Asset

1) Assume all other components of net plant forecast results match forecast allowed in rates exactly, except for CSC actual cost is lower than forecast. A regulatory liability is generated from the net plant tracker:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
Net Utility Plant/ Depreciation Tracker Mechanism	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
Average Net Plant	$8,198,018	$8,835,829	$9,613,264	$8,098,018	$8,535,829	$9,213,264	($100,000)	($300,000)	($400,000)
Pre-Tax Return %	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%
Return on Ratebase	$715,274	$778,875	$866,632	$706,549	$752,430	$830,572	($8,725)	($26,445)	($36,060)
Depreciation	$204,833	$240,739	$276,510	$203,230	$235,001	$267,964	($1,603)	($5,738)	($8,546)
Total Net Plant/Depreciation Revenue Requirement	$920,106	$1,019,614	$1,143,142	$909,778	$987,431	$1,098,536	($10,328)	($32,183)	($44,606)

2) Company's portion of the savings from the lower CSC net plant/depreciation will be booked as a regulatory asset, offsetting a portion of the regulatory liability booked for the net plant tracker:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
CSC Net Utility Plant/ Depreciation Tracker Mechanism	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
CSC Average Net Plant	$154,737	$469,928	$793,645	$54,737	$169,928	$393,645	($100,000)	($300,000)	($400,000)

Example of CSC Tracker and Net Utility Plant Reconciliation Mechanism
Net Utility Plant/Depreciation Tracker is a One Way Downward Mechanism
($000's)

Example 4

Net Plant/Depreciation Tracker (includes CSC)	Over	1) Do Not Record Net Utility Plant Regulatory Asset - One Way Downward Tracker
CSC Net Plant/Depreciation Tracker	Over	2) Record 90% CSC Revenue Requirement Net Plant Excess as a Regulatory Asset

1) Assume other components of net plant forecast results exceed forecast allowed in rates, including CSC actual cost is higher than forecast. No regulatory asset is generated due to one way downward tracker:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
Net Utility Plant/ Depreciation Tracker Mechanism	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
Average Net Plant	$8,198,018	$8,835,829	$9,613,264	$9,198,018	$10,835,829	$12,613,264	$1,000,000	$2,000,000	$3,000,000
Pre-Tax Return %	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%
Return on Ratebase	$715,274	$778,875	$866,632	$802,523	$955,174	$1,137,081	$87,250	$176,299	$270,449
Depreciation	$204,833	$240,739	$276,510	$254,833	$315,739	$376,510	$50,000	$75,000	$100,000
Total Net Plant/Depreciation Revenue Requirement	$920,106	$1,019,614	$1,143,142	$1,057,356	$1,270,913	$1,513,591	$137,250	$251,299	$370,449

2) Company's portion of the overage from the higher CSC net plant/depreciation will be booked as a regulatory liability:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
CSC Net Utility Plant/ Depreciation Tracker Mechanism	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
CSC Average Net Plant	$154,737	$469,928	$793,645	$156,737	$473,928	$799,645	$2,000	$4,000	$6,000
Pre-Tax Return %	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%
Return on Ratebase	$13,501	$41,424	$71,547	$13,675	$41,777	$72,088	$174	$353	$541
CSC Depreciation	$2,602	$9,100	$16,846	$2,859	$9,320	$16,861	$258	$220	$15
CSC Net Plant/Depreciation Revenue Requirement	$16,103	$50,524	$88,393	$16,535	$51,096	$88,949	$432	$573	$556
CSC Reconciliation Mechanism - to absorb 10% of Net Plant/Depreciation Revenue Requirement Above Amount in Rates				10%			($43)	($57)	($56)
CSC Reconciliation Mechanism - Regulatory Asset to Recover 90% of Net Plant/Depreciation Revenue Requirement				90%			$389	$515	$501
Total Net Plant/Depreciation and CSC Net Plant/Depreciation Tracker Combined Results in Net Regulatory Asset/(Liability)							$389	$515	$501

The Brooklyn Union Gas Company d/b/a National Grid NY
Example of CSC Tracker and Net Utility Plant Reconciliation Mechanism
Net Utility Plant/Depreciation Tracker is a One Way Downward Mechanism
'($000's)

Example 5

Net Plant/Depreciation Tracker (includes CSC)	Under	1) Record Net Utility Plant Regulatory Liability
CSC Net Plant/Depreciation Tracker	Under	2) Record 10% CSC Revenue Requirement Net Plant Savings as a Regulatory Asset Offset by difference between CSC Savings and Total Net Plant Savings

1) Assume other components of net plant forecast results are higher than forecast allowed in rates, and CSC actual cost being lower than forecast in excess of total net plant underage. A regulatory liability is generated from the net plant tracker:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
Net Utility Plant/ Depreciation Tracker Mechanism	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
Average Net Plant	$8,198,018	$8,835,829	$9,613,264	$7,198,018	$6,835,829	$6,613,264	($1,000,000)	($2,000,000)	($3,000,000)
Pre-Tax Return %	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%
Return on Ratebase	$715,274	$778,875	$866,632	$628,024	$602,576	$596,183	($87,250)	($176,299)	($270,449)
Depreciation	$204,833	$240,739	$276,510	$154,833	$165,739	$176,510	($50,000)	($75,000)	($100,000)
Total Net Plant/Depreciation Revenue Requirement	$920,106	$1,019,614	$1,143,142	$782,857	$768,315	$772,693	($137,250)	($251,299)	($370,449)

2) Company's portion of the savings from the lower CSC net plant/depreciation will be booked as a regulatory asset, offsetting a portion of the regulatory liability booked for the net plant tracker:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
CSC Net Utility Plant/ Depreciation Tracker Mechanism	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
CSC Average Net Plant	$154,737	$469,928	$793,645	$124,737	$419,928	$713,645	($30,000)	($50,000)	($80,000)
Pre-Tax Return %	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%	8.72%	8.81%	9.01%
Return on Ratebase	$13,501	$41,424	$71,547	$10,883	$37,016	$64,335	($2,617)	($4,407)	($7,212)

CSC Net Plant/Depreciation Revenue Requirement	$16,103	$50,524	$88,393	$13,159	$45,274	$79,383	($2,944)	($5,249)	($9,010)
CSC Reconciliation Mechanism - Regulatory Asset to Retain 10% of Net Plant/Depreciation Revenue Requirement Savings						10%	$294	$525	$901
CSC Reconciliation Mechanism - Regulatory Liability to Refund 90% of Net Plant/Depreciation Revenue Requirement (included in Net Utility Plant/Depreciation Tracker)						90%	($2,649)	($4,725)	($8,109)
Total Net Plant/Depreciation and CSC Net Plant/Depreciation Tracker Combined Results in Net Regulatory Asset/(Liability)							($136,955)	($250,774)	($369,548)

The Brooklyn Union Gas Company d/b/a National Grid NY
Surcharge of Incremental Energy Effiency
Illustrative Example
($000's)

Example of Incremental Energy Efficiency Surcharge Mechanism

	Rate Year One	Rate Year Two	Rate Year Three
Actual Rate Allowance through Base Rates	34,719,310	51,338,453	43,006,993
Illustrative Example of Actual Spend	34,719,310	54,000,000	42,000,000
Difference between Rate Allowance and Approved NE:NY Budgets to/(from) customers	-	2,661,547	(1,006,993)

Notes:

1 Total Rate Allowance through Base Rates
2 Illustrative Example - Subject to outcome of NE:NY Interim Review in Proceeding 18-M-0084
3 Difference between Rate Allowance and Illustrative Actual Spend
4 Rate Year 1 is 9 months of Calendar Year 2024, 3 months of 2025 approved NE:NY budgets less amount collected through DCSM surcharge
5 Rate Year 2 is 9 months of approved CY25, 3 months of Staff Proposed Provisional Budgets in July 2023 Order
6 Rate Year 3 is 12 months of Staff Proposed Provisional Budgets in July 2023 Order

The Brooklyn Union Gas Company d/b/a National Grid NY
Deferral of Uncollectible Expense - Illustrative Example
($000's)

EXAMPLE

		Rate Year One	Rate Year Two	Rate Year Three
1	Actual Uncollectible Expense	$ 18,000	$ 16,000	$ 25,000
2	Rate Allowance	15,477	19,309	20,752
3	Amount Deferred to (from) customers	$ (2,523)	$ 3,309	$ -

Notes

1 Total Uncollectible Expense - Illustrative Example
2 Actual Rate Allowance
3 Line 2 less Line 1
4 Reconciliation of uncollectible expense applies to Rate Year One and Rate Year Two
5 MFC and ESCO amounts recovered through Purchase of Receivable Discount included in Total Uncollectible Expense.
6 Referenced in Section 8.2.2 of Joint Proposal

1) Revenue requirement assumes capital expenditures are placed in-service in the month spent.
2) Depreciation is based on existing composite depreciation rates for Meters/Hse Reg and Mains/Services, based on 12/31/2022 plant balances weighted for capex forecast.
3) Utilizes pre-tax WACC by fiscal year with a ROE of 9.35%
4) The FY 2025 incremental/under spend will be rolled forward to the FY 2026, and FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
5) The FY 2026 incremental/under spend will be rolled forward to the FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
6) To the extent that the Companies' actual capital expenditures for customer connections exceed the thresholds of $58.5M - FY25, $58.6M - FY26 and $51.7M - FY27, the Companies' deferral will be capped at 90 percent of the revenue requirement differences above those thresholds

1) Revenue requirement assumes capital expenditures are placed in-service in the month spent.
2) Depreciation is based on existing composite depreciation rates for Meters/Hse Reg, based on 12/31/2022 plant balances weighted for capex forecast.
3) Utilizes pre-tax WACC by fiscal year with a ROE of 9.35%
4) The FY 2025 incremental/under spend will be rolled forward to the FY 2026, and FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
5) The FY 2026 incremental/under spend will be rolled forward to the FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.

Meter Work - Meter Relocation	5,250	10,815	18,566	4,000	11,000	18,000	(1,250)	185	(566)
							-	-	-
							-	-	-
							-	-	-
Total KEDLI - CAPEX Forecast	$ 5,250	$ 10,815	$ 18,566	$ 4,000	$ 11,000	$ 18,000	$ (1,250)	$ 185	$ (566)

	Example Forecast Allowed in Rates				Revenue Requirement Actuals				Revenue Requirement Difference - Regulatory Liability			
Revenue Requirement:	**FY2025**	**FY2026**	**FY2027**	**3 Year Cumulative**	**FY2025**	**FY2026**	**FY2027**	**3 Year Cumulative**	**FY2025**	**FY2026**	**FY2027**	**3 Year Cumulative**
Pre-Tax WACC	8.64%	8.82%	9.15%		8.64%	8.82%	9.15%					
Average Ratebase	$ 2,625	$ 13,283	$ 25,505		$ 2,000	$ 11,500	$ 25,500					
Gas Meters & House Regulators Depreciation Rate	2.66%	2.64%	2.64%		2.66%	2.64%	2.64%					
Return on Average Ratebase	$ 227	$ 1,172	$ 2,335		$ 173	$ 1,015	$ 2,335					
Depreciation Expense	$ 70	$ 281	$ 669		$ 53	$ 251	$ 633					
Total Revenue Requirement Impact	$ 297	$ 1,453	$ 3,004	$ 4,754	$ 226	$ 1,265	$ 2,968	$ 4,459				$ (295)

Example Regulatory Liability 3 Year Cumulative Actual Revenue Requirement is lower than the Rate Allowance; regulatory liability recorded for amounts due to customer

Downward only Reconciliation 3 Year Cumulative Actual Revenue Requirement higher than the Rate Allowance; no amounts due from customer

Net Utility Plant and Depreciation Expense Mechanism The Inside Meter Relocation tracker works in Conjunction with Net Plant-Downward Tracker Mechanism as follows:
If the Net Plant/Depreciation Tracker results in a liability greater than or equal to the Inside Meter Relocation liability, then 100% of the Inside Meter Relocation liability is included in the Net Plant/Depreciation Tracker liability deferral
If the Net Plant/Depreciation Tracker results in a liability that is less than the Inside Meter Relocation liability, then the Total deferral for the Net Plant/Depreciation and Inside Meter Relocation Trackers is equal to the Inside Meter Relocation liability less the Net Plant/Depreciation Tracker liability

Note Actual Revenue Requirement will assume capital expenditures are placed in-service in the month spent.

1) Revenue requirement assumes capital expenditures are placed in-service in the month spent.
2) Depreciation is based on existing composite depreciation rate for mains and services based on 12/31/2022 plant balances.
3) Utilizes pre-tax WACC by fiscal year with a ROE of 9.35%
4) The FY 2025 incremental/under spend will be rolled forward to the FY 2026 and FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
5) The FY 2026 incremental/under spend will be rolled forward to the FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.

Keyspan Gas East Corporation d/b/a National Grid NY
Example of CSC Tracker and Net Utility Plant Reconciliation Mechanism
Net Utility Plant/Depreciation Tracker is a One Way Downward Mechanism
($000's)

Example 1

Net Plant/Depreciation Tracker (includes CSC)	Under	1) Record Net Utility Plant Regulatory Liability
CSC Net Plant/Depreciation Tracker	Under	2) Record 10% CSC Revenue Requirement Net Plant Savings as a Regulatory Asset

1) Assume all other components of net plant forecast results match forecast allowed in rates exactly, except for CSC actual cost is lower than forecast. A regulatory liability is generated from the net plant tracker:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
Net Utility Plant/ Depreciation Tracker Mechanism	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
Average Net Plant	$5,487,814	$5,895,129	$6,381,426	$5,487,314	$5,894,729	$6,380,826	($500)	($400)	($600)
Pre-Tax Return %	8.64%	8.82%	9.15%	8.64%	8.82%	9.15%	8.64%	8.82%	9.15%
Return on Ratebase	$474,419	$520,243	$584,217	$474,376	$520,207	$584,162	($43)	($35)	($55)
Depreciation	$136,574	$185,893	$200,046	$136,573	$185,890	$200,027	($2)	($3)	($19)
Total Net Plant/Depreciation Revenue Requirement	$610,994	$706,136	$784,263	$610,949	$706,097	$784,189	($45)	($39)	($74)

2) Company's portion of the savings from the lower CSC net plant/depreciation will be booked as a regulatory asset, offsetting a portion of the regulatory liability booked for the net plant tracker:

		Example Forecast Allowed in Rates			Assumed Actual Results			Difference		
CSC Net Utility Plant/ Depreciation Tracker Mechanism		FY2025	FY2026	FY2027	FY2025	FY2026	FY2027	FY2025	FY2026	FY2027
CSC Average Net Plant		$5,027	$16,010	$27,612	$4,527	$15,610	$27,012	($500)	($400)	($600)

Surcharge of Incremental Energy Effiency
Illustrative Example
($000's)

Example of Incremental Energy Efficiency Surcharge Mechanism

		Rate Year One	Rate Year Two	Rate Year Three
1	Amount allowed through NE:NY Proceeding	25,316,401	37,748,934	32,894,644
2	KEDLI HEAT	2,500,000	1,875,000	-
3	Actual Rate Allowance through Base Rates	27,816,401	39,623,934	32,894,644
4	Illustrative Example of Actual Spend	27,816,401	37,000,000	34,000,000
5	Difference between Rate Allowance and Approved NE:NY Budgets to/(from) customers	-	2,623,933	(1,105,356)

Notes:

1 Allowance through NE:NY Proceeding
2 KEDLI HEAT - discontinued after RY2
3 Line 1 plus Line 2 - Total Rate Allowance through Base Rates
4 Illustrative Example - Subject to outcome of NE:NY Interim Review in Proceeding 18-M-0084
5 Difference between Rate Allowance and Illustrative Actual Spend
6 Rate Year 1 is 9 months of Calendar Year 2024, 3 months of 2025 approved NE:NY budgets less amount collected through DCSM surcharge
7 Rate Year 2 is 9 months of approved CY25, 3 months of Staff Proposed Provisional Budgets in July 2023 Order
8 Rate Year 3 is 12 months of Staff Proposed Provisional Budgets in July 2023 Order

1) Revenue requirement assumes capital expenditures are placed in-service in the month spent.
2) Depreciation is based on existing composite depreciation rates for Meters/Hse Reg and Mains/Services, based on 12/31/2022 plant balances weighted for capex forecast.
3) Utilizes pre-tax WACC by fiscal year with a ROE of 9.35%
4) The FY 2025 incremental/under spend will be rolled forward to the FY 2026, and FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
5) The FY 2026 incremental/under spend will be rolled forward to the FY 2027 deferral, calculating a return on the net plant investment and associated depreciation expense.
6) To the extent that the Companies' actual capital expenditures for customer connections exceed the thresholds of $66.3M - FY25, $67.8M - FY26 and $69.2M - FY27, the Companies' deferral will be capped at 90 percent of the revenue requirement differences above those thresholds

Keyspan Gas East Corporation d/b/a National Grid NY
Example of Customer Connections Two Way Tracker and Net Utility Plant Reconciliation Mechanism
Net Utility Plant/Depreciation Tracker is a One Way Downward Mechanism
'($000's)

Example 1

Net Plant/Depreciation Tracker (includes Cust. Connection)	Under	1) Record Net Utility Plant Regulatory Liability
Customer Connections Net Plant/Depreciation Tracker	Under	2) Included in Net Plant Tracker

1) Assume all other components of net plant forecast results match forecast allowed in rates exactly, except for Customer Connections actual cost is lower than forecast. A regulatory liability is generated from the net plant tracker:

	Example Forecast Allowed in Rates			Assumed Actual Results			Difference

Total Revenue Requirement Impact	$ -	$ -	$ 1,232,909

Appendix 8

EARNINGS ADJUSTMENT MECHANISM

The Companies will adopt a Gas Demand Response Earnings Adjustment Mechanism ("EAM") in each Rate Year. If any of the performance levels detailed below are achieved, the Companies will earn an annual pre-tax positive revenue adjustment. The EAM will be awarded at minimum, midpoint, and maximum target levels in dollars only, as specified in Table 4. Basis point amounts associated with each metric and achievement level are provided for illustrative purposes only. Basis point amounts will be updated based on actual data in each Rate Year.

For periods beyond the Rate Years, the Companies may file a petition for Commission consideration proposing a continuation of the Gas Demand Response EAM and/or other EAMs until they file to establish new base delivery rates. The EAMs, targets, and positive revenue adjustments are described in the sections that follow. The targets and associated incentives are outlined in the tables below.

Table 1: EAM Target Summary

Metric	Units		Rate Year 1	Rate Year 2	Rate Year 3
Gas Demand Response	Dth/Hr	Min	Determined formulaically based on historical performance		
		Mid			
		Max			

Table 2: EAM Achievable Basis Points

Metric		Rate Year 1	Rate Year 2	Rate Year 3
Gas Demand Response	Min	1	1	1
	Mid	3	3	3
	Max	5	5	5

Table 3: Value of a Basis Point

	$ (000s)		
	Rate Year 1	**Rate Year 2**	**Rate Year 3**
KEDNY	$0.491m	$0.531m	$0.580m
KEDLI	$0.316m	$0.343m	$0.375m

Table 4: EAM Achievable Awards

Metric			Rate Year 1	Rate Year 2	Rate Year 3
Gas Demand Response	KEDNY	Min	$0.491m	$0.531m	$0.580m
		Mid	$1.473m	$1.593m	$1.740m
		Max	$2.455m	$2.655m	$2.900m
	KEDLI	Min	$0.316m	$0.343m	$0.375m
		Mid	$0.948m	$1.029m	$1.125m
		Max	$1.580m	$1.715m	$1.875m

EAMs

1.0 Gas Demand Response

1.0.1 Description

The Gas Demand Response ("DR") EAM incentivizes the Companies to increase, year over year, the amount of peak demand reductions delivered during DR events by their portfolio of firm gas DR programs. As such, it drives the Companies not only to increase enrollment in those programs, but also to take steps to increase customer participation during events.

Because the Companies operate firm gas DR programs as an aggregated portfolio across the KEDNY and KEDLI service territories, and because the programs' goal is to provide region-wide gas system relief at peak times, performance on the EAM will be measured based on the combined program results across both territories, and achievement above the minimum target would result in achievement of a positive revenue adjustment for both KEDNY and KEDLI.

1.0.2 Metric

Targets and achievement for the EAM will be measured in terms of dekatherms per hour (dth/H).

Achievement is calculated as the highest average hourly reduction, expressed in terms of dth/H, achieved during a given event in the winter season (*i.e.,* November 1-March 31). Events – multi-hour periods, typically 4 or 8 hours in duration, during which the Companies request that participating customers reduce their gas consumption – can include all varieties, including test, actual, and emergency.[1]

[1] Test events are typically called toward the beginning of the winter season, and are called primarily to ensure that customers are ready and able to respond to actual events and to ensure appropriate communication protocols are in place between the Companies and enrolled customers. Actual events are called on days where the forecast average temperature is below the program temperature event thresholds,

As described below, the EAM targets are set using the baseline that results from a logarithmic regression derived from the greater of (a) the highest event performance during each of the preceding three winter seasons (in a similar fashion to how achievement is calculated) and (b) 5% above the preceding winter's value. This ensures that targets will escalate year-over-year and not decline due to low achievement in any particular winter season.[2]

Performance during events is calculated as the sum of achievement by all firm gas DR program types that result in measurable usage reductions – currently, the Load Shedding, Load Shifting, and Bring Your Own Thermostat ("BYOT") programs. To incentivize the Companies to devise new and innovative programs and methods to reduce peak demand via firm gas DR, that list could expand to include new gas DR programs that the Companies develop in the future. If the Companies wish in future to include any such new program in the calculation of achievement on this EAM, they will seek the approval of DPS Staff, and, upon their direction, submit a filing in this docket that explains the proposed calculation methodology for that program.

The methodologies by which performance is determined for the Load Shedding and Load Shifting programs during events are detailed in the Companies' tariffs.[3] Performance for the BYOT program is determined using a randomized control trial methodology.[4]

Firm gas DR program achievement can be reported in terms of dekatherms per day (dth/D) or dth/H, but will be translated into units of dth/H to use a common metric across program types. A single dth/H value will be calculated for each event based on the aggregate average hourly reduction of each program. Each programs' average hourly reduction will be calculated by dividing the total program reductions during event hours by the number of event hours.

Mathematically, achievement is calculated as:

---

resulting in higher than normal gas consumption and strains on the gas system. Emergency events are called in response to emergency conditions on the system such as constraints on upstream transmission pipelines. For more information on event types, see Section 63.8 of The Brooklyn Union Gas Company tariff for gas service.

[2] Low achievement can be a result of either factors that are somewhat within the Companies' control (*e.g.* amounts of customer enrollment, performance during events, communication with enrolled customers) and/or outside of their control (*e.g.* higher-than-normal event temperatures that lead to lower measurable event reductions, and higher-than-normal temperatures throughout a winter leading to only test events – which tend to result in lower event hour reductions -- being called).

[3] Customer performance during Load Shedding and Load Shifting DR events is described in Section 63.11.c of KEDNY's tariff for gas service.

[4] A further description of this methodology can be found in Section 4.a.ii of the Companies' latest Firm DR Annual Reports, filed under Cases 20-G-0086 and 20-G-0087.

$$RY_x\ Achievement = \max \sum Dth\ per\ hour\ reductions\ in\ each\ of\ the\ gas\ DR\ programs\ during\ each\ event\ during\ the\ winter\ season$$

where,

x = 1, 2, 3, etc. for Rate Year 1, Rate Year 2, etc.

winter season = November 1 of RY_x through the following March 31

1.0.3 Targets

Minimum, mid-point, and maximum targets are 4%, 8%, and 28%, respectively, above the baseline. The baseline is computed using a logarithmic regression derived from the highest event performance during each of the preceding three winter seasons. (For example, performance during the 2024-25 winter season will be determined using the values from the 2021-22, 2022-23, and 2023-24 winter seasons). As noted above, if a given historical value is less than 5% greater than the preceding winter's value, it will be set at 5% above the preceding winter's value to ensure year-over-year escalations in targets.

1.0.4 Achievement and basis points

Achievement will be based on the targets as set forth above, with one linear scale between minimum and midpoint basis points and another between midpoint and maximum basis points, as follows:

a) If achievement in RYx is less than the minimum target,

$$RY_xEAM(\$) = 0$$

b) If achievement in RYx is equal to or between the minimum and midpoint targets,

$$RY_xEAM\ (\$) = [RY_xBP_{Min} + (RY_x\ BP\ Slope_{Mid-Min}) * (RY_x\ Achievement - RY_x\ Target_{Min})] * RY_x\$BP$$

c) If achievement in RYx is equal to or between the midpoint and maximum targets,

$$RY_xEAM\ (\$) = [RY_xBP_{Mid} + (RY_x\ BP\ Slope_{Max-Mid}) * (RY_x\ Achievement - RY_x\ Target_{Mid})] * RY_x\$BP$$

d) If achievement in RYx is greater than the maximum target,

$$RY_xEAM\ (\$) = RY_xBP_{Max} * RY_x\$BP$$

where,

$$RY_x EAM\ (\$) = Incentive\ in\ dollars\ for\ EAM\ achievement\ in\ Rate\ Year\ x$$

$$RY_x BP_{Min} = Minimum\ basis\ points\ allocated\ to\ the\ EAM\ in\ Rate\ Year\ x$$

$$RY_x BP_{Mid} = Midpoint\ basis\ points\ allocated\ to\ the\ EAM\ in\ Rate\ Year\ x$$

$$RY_x BP_{Max} = Maximum\ basis\ points\ allocated\ to\ the\ EAM\ in\ Rate\ Year\ x$$

$$RY_x BP\ Slope_{Mid-Min} = \frac{RY_x BP_{Mid} - RY_x BP_{Min}}{RY_x\ Target_{Mid} - RY_x\ Target_{Min}}$$

$$RY_x BP\ Slope_{Max-Mid} = \frac{RY_x BP_{Max} - RY_x BP_{Mid}}{RY_x\ Target_{Max} - RY_x\ Target_{Mid}}$$

$$RY_x Achievement = Achievement\ on\ the\ EAM\ in\ Rate\ Year\ x$$

$$RY_x Target_{Min} = Minimum\ EAM\ target\ in\ Rate\ Year\ x$$

$$RY_x Target_{Mid} = Midpoint\ EAM\ target\ in\ Rate\ Year\ x$$

$$RY_x Target_{Max} = Maximum\ EAM\ target\ in\ Rate\ Year\ x$$

$$RY_x \$BP = The\ sum, across\ KEDNY\ and\ KEDLI, of\ the\ \$\ per\ basis\ point\ in\ Rate\ Year\ x$$

2.0 EAM REPORTING REQUIREMENTS

The Company will file an annual report no later than April 15 of each Rate Year (beginning in Rate Year Two) setting forth the Company's performance relative to the EAM metric targets and calculations for incentives earned, including proration of any incentives related to metric achievement between the minimum, midpoint, and the maximum target levels.

3.0 RECOVERY OF EAM POSITIVE REVENUE ADJUSTMENTS

The Companies will be permitted to recover earned EAM positive revenue adjustments through the existing Earnings Adjustment Mechanism surcharge set forth in their respective gas tariffs.

Appendix 9

Compliance Measure Procedure

Applicability

The compliance measure applies to instances of non-compliances (occurrences or violations) of certain gas pipeline safety-related regulations set forth below that are identified and included in Staff's record and field audit letters. The categorization of non-compliances as high risk or other risk is for administrative purposes and does not constitute an admission by The Brooklyn Union Gas Company d/b/a National Grid NY (KEDNY) or KeySpan Gas East Corporation d/b/a National Grid (KEDLI), referred to individually as "the operator," as to the level of risk associated with any such regulation or the non-compliance thereunder, or that there is any risk associated with the non-compliance.

The compliance measure covers the calendar years associated with the rate proceeding in Case 23-G-0225 for KEDNY and in Case 23-G-0226 for KEDLI and shall remain in effect until changed by the Commission.

Targets

The operator will incur negative revenue adjustments for each high risk and other risk non-compliance as set forth in the following tables:

2024 through 2026 Field Audits		
Associated Risk	Target (Number of Non-Compliances)	Negative Revenue Adjustment (Basis Points per Non-Compliance)
High Risk	1 to 10	0.50
High Risk	Greater than 10	1.00
Other Risk	Greater than 0	0.25

For field audits, only actions performed or required to be performed by the operator in the calendar year the audit is conducted may constitute a non-compliance under this measure.

2024 through 2026 Record Audits		
Associated Risk	Target (Number of Non-Compliances)	Negative Revenue Adjustment (Basis Points per Non-Compliance)
High Risk	1 to 5	0
High Risk	6 to 10	0.50
High Risk	Greater than 10	1.00
Other Risk	Greater than 10	0.25

For record audits, only documentation required to be performed during the calendar year prior to the calendar year in

which the record audit is conducted may constitute a non-compliance under this measure. Unless it is a continuing violation from prior years, in which case it may constitute a non-compliance under this measure.

Field and Record Audits

On a calendar year basis, Staff conducts field and record audits to determine the operator's compliance with the pipeline safety regulations contained in 16 NYCRR §§10, 232, 255, 257, 258, 259, 261, 262, 293, 420, 733, and 753, Title 49 of United States Code of Federal Regulations (49 CFR) §193, and the relevant statutory provisions in General Business Law and Public Service Law. At the conclusion of each audit, Staff will present its findings at a compliance meeting to the operator.

The operator shall have ten business days from the date of the compliance meeting to cure any identified document deficiency. Only official operator records, as defined in the operator's operating and maintenance procedures, shall be considered by Staff as a cure to a document deficiency. Staff shall provide the operator with the field and record audit letters and shall file the letters in Cases 23-G-0225 and 23-G-0226, respectively. Only non- compliances identified and included in Staff's field and record audit letters shall be considered for the compliance measure.

The field and record audit letters require, if applicable, that the operator respond within thirty days of the audit letter detailing what actions have and/or will be taken by the operator to remediate the non-compliances and to address Staff's concerns, and to prevent future reoccurrences. The operator's response may also include any disputes related to the non-compliance, including but not limited to, sufficient arguments regarding the appropriateness of applying a negative revenue adjustment. The operator shall file, if applicable, its response to an audit letter in Cases 23-G-0225 and 23-G-0226, respectively.

In addition, should the operator address non-compliances of a single regulation in excess of ten per audit type (field or record) per calendar year through a remediation plan, the operator shall file the remediation plan within ninety days of Staff's field or record audit letters in Cases 23-G-0225 and 23-G-0226, respectively. The remediation plan shall include, at a minimum, an analysis for the non-compliances, and an explanation of how the non- compliances will be resolved, including the dates by which the non-compliances will be brought into compliance or, where appropriate, when remedial actions will be taken to prevent future recurrence.

Staff then will review and consider each non-compliance for applicability with the compliance measure on a case-by-case basis. Non-compliances subject to a separate penalty proceeding under Public Service Law Section 25 or 25-a, and non-compliances for which sufficient arguments have been raised regarding the appropriateness of a negative revenue adjustment, will be excluded from consideration. Once reviewed and the circumstances considered, Staff shall file the negative revenue adjustment letter in Cases 23-G-0225 and 23-G-0226, respectively.

Negative Revenue Adjustments

The operator will incur negative revenues adjustments for each high risk and other risk non-compliance up to a combined maximum of seventy-five basis points per calendar year, as per the above targets, and the Joint Proposal in Cases 23-G-0225 and 23-G-0226, respectively.

The number of non-compliances, for any applicable regulation, may be capped at ten per audit type (field or record) per calendar year provided a remediation plan is filed in Cases 23-G-0225 and 23-G-0226, respectively. If the operator files a remediation plan, it shall include, at a minimum, an analysis for the non-compliances, and an explanation of how the non-compliances will be resolved, including the dates by which the non-compliances will be brought into compliance or, where appropriate, when remedial actions will be taken to prevent future recurrence.

Remediation plans shall be filed with the Secretary to the Commission within ninety days of Staff's field or record audit letters. If the operator fails to file a remediation plan or fails to comply with the provisions of its remediation plan, those non-compliances in excess of ten shall be incorporated with the remainder of the non-compliances being considered under this measure.

If the operator elects to dispute the non-compliances or negative revenue adjustments, or to seek exclusions of certain non-compliances based on extenuating circumstances, the operator shall file a petition within sixty days of Staff's negative revenue adjustment letter in Cases 23-G-0225 and 23-G-0226, respectively. For those disputed items or exclusions, the operator will not incur a negative revenue adjustment until the Commission has issued a determination. Prior to the issuance of a determination, the Commission may, in its discretion, provide the operator with an evidentiary hearing.

The operator does not waive its right to seek judicial appeal of any Commission determination under applicable law. Should the operator elect to seek judicial appeal of any Commission determination under applicable law, the operator will not incur a negative revenue adjustment until such time that the judicial review is complete, and a determination rendered.

If a non-compliance is the subject of a separate penalty proceeding under Public Service Law Section 25 or 25-a, the non-compliance shall not be considered for the compliance measure.

If a non-compliance has a corresponding procedural non-compliance under 16 NYCRR §255.603(d), both non-compliances shall be considered as a single non-compliance for the compliance measure.

Risk Rankings

The pipeline safety regulations are contained in 16 NYCRR §§10, 232, 255, 257, 258, 259, 261, 262, 293, 420, 733, and 753, 49 CFR §193, and the relevant statutory provisions contained in General Business Law and Public Service Law. Set forth below are the high risk and other risk pipeline safety regulations being considered for the compliance measure.

Title	Chapter	Sub-chapter	Part	Section	Subdivision	Description	Risk
16	III	C	255	5	(g)	Class Locations	High

Appendix 10

CORPORATE STRUCTURE AND AFFILIATE RULES

The following Corporate Structure and Affiliate Rules apply to The Brooklyn Union Gas Company d/b/a National Grid NY ("KEDNY") and KeySpan Gas East Corporation d/b/a National Grid ("KEDLI") (collectively, the "Companies").

1. Definitions used in this document

UK HoldCo – the top level holding company in the National Grid group. This is National Grid plc or its successor as the ultimate parent holding company.

US HoldCo – the immediate parent and holding company for National Grid's US utility operations. This is National Grid USA or its successor.

As used in this Appendix 12, "HoldCo" refers to both UK HoldCo and US HoldCo. Where explicit reference to one of the HoldCos is required, the term "UK HoldCo" or "US HoldCo" will be used.

RegCo – means KEDNY or KEDLI and each of their successors. KEDNY and KEDLI are wholly owned indirect subsidiaries of US HoldCo and carry on regulated gas distribution services.

ServiceCo – means National Grid USA Service Company, Inc. and National Grid Engineering & Survey Inc., or any successor(s) thereto, which provide a variety of traditional corporate, administrative, and other services.

Unregulated Competitive Energy Affiliate(s) – means any of US HoldCo's current or future unregulated affiliates engaged in competitive energy markets in New York State, including but not limited to exploration and/or production, generation, distributed energy resources ("DER"), retail energy services, or HVAC services.

Unregulated Affiliate(s) – means any of US HoldCo's current or future affiliates engaged in competitive retail services that KEDNY or KEDLI contracts for or provides.

National Grid FERC Regulated Affiliates – means affiliates of HoldCo in New York that are exclusively regulated by the Federal Energy Regulatory Commission ("FERC").

National Grid Other Affiliates – means affiliates of HoldCo, including affiliates of KEDNY or KEDLI, but excluding National Grid FERC Regulated Affiliates, Unregulated Competitive Energy Affiliates and Unregulated Affiliates.

2. Rules Governing Affiliate Transactions

2.1 Separation and Location

RegCo, HoldCo, Unregulated Competitive Energy Affiliates, Unregulated Affiliates, National Grid FERC Regulated Affiliates, and National Grid Other Affiliates will each be operated as

separate entities and will maintain separate books and records of account. RegCo, HoldCo, ServiceCo and National Grid Other Affiliates may occupy the same building. RegCo may also share premises with National Grid's affiliates engaged in regulated gas and/or electric transmission and/or distribution operations if such sharing provides for efficiencies in occupancy and use of resources. RegCo may not share a building with any Unregulated Competitive Energy Affiliates or Unregulated Affiliates.

2.2 Board of Directors

A majority of the RegCo Board of Directors will be Eligible Directors. An Eligible Director is any individual who is not (i) an officer or director of HoldCo or (ii) an officer or director of any Unregulated Competitive Energy Affiliate or Unregulated Affiliate, or (iii) an officer or director of any National Grid FERC Regulated Affiliate. No member of the RegCo Board of Directors will also be an employee, officer or director of any Unregulated Competitive Energy Affiliate or Unregulated Affiliate. No member of the RegCo Board of Directors will also be an employee, officer or director of any unaffiliated competitive energy firm engaged in exploration and/or production, generation, DER, retail energy services or HVAC services in RegCo's service territory. No member of the RegCo Board of Directors will also be an employee, officer or director of any unaffiliated firm engaged in competitive retail services that KEDNY or KEDLI contracts for or provides.

2.3 Accounting Issues and Financial Protections

2.3.1 Under United States Generally Accepted Accounting Principles (US GAAP) for purchase accounting, the total acquisition price, together with transaction costs, in excess of the fair market value assigned to the assets and liabilities of the acquired company are recorded as goodwill on the acquired company's accounts. Under Financial Accounting Standards Board (FASB) standards for accounting for goodwill, goodwill is not amortized against earnings. Instead, goodwill is reviewed for impairment and written down and expensed only in a period in which the goodwill's recorded value exceeds its fair value. As set forth in Section 1 of Appendix 5 of the Merger & Gas Revenue Requirement Joint Proposal (Dated July 6, 2007) in Case 06-M-0878, as adopted by the Commission's September 17, 2007 Order in that case, no goodwill will be recorded on KEDNY's or KEDLI's regulatory accounts that are subject to the jurisdiction of the Commission. As a result, there will be no ratemaking effects associated with recording goodwill under US GAAP for KEDNY and KEDLI.

2.3.2 The financial protections in Appendix 5 of the Merger & Gas Revenue Requirement Joint Proposal (dated July 6, 2007) in Case 06-M-0878, as modified by the Commission's September 17, 2007 Order in that case, will continue in full force and effect in accordance with their terms.

2.4 Cost Allocation and Audit

2.4.1 Appropriate cost allocation procedures will be followed by HoldCo and its affiliates to assure the proper allocation on a fully distributed basis, to

HoldCo, RegCos, or other affiliates of the costs of any HoldCo personnel, property or services used by RegCo or other affiliates of HoldCo.

2.4.2 Any future revisions to cost allocation methodologies of ServiceCo will be filed with the Secretary of the Commission.

2.4.3 The FERC carries out regular audits of ServiceCo. Such audits include examination of authorized cost allocation calculations and a review of internal audit policies, procedures and reports. The Department of Public Service will be invited to participate in such audits to receive assurance that applicable transactions and/or allocations are being carried out in a compliant fashion. The Department of Public Service will also receive copies of all reports issued to the Companies by FERC as a result of such audits.

2.4.4 The Companies will meet annually with DPS Staff to review all aspects of cost allocations and their application.

2.4.5 If at any time the Companies becomes aware of events likely to cause a reconsideration of or material change to cost allocations, they will advise Staff and arrange a meeting to consider those issues at that time.

2.5 Transfer of Assets from or to RegCo

Transfers of assets (or rights to use such assets) from RegCo to Unregulated Competitive Energy Affiliate(s) and Unregulated Affiliate(s) will be priced at the higher of book value or fair market value and will be subject to Commission approval, except as otherwise provided in Mutual Assistance Agreements. Transfer of assets (or rights to use such assets) from Unregulated Competitive Energy Affiliate(s) and Unregulated Affiliate(s) to RegCo will be priced at the lower of book value or fair market value. Transfer of assets (or rights to use such assets) between RegCo and National Grid FERC Regulated Affiliates will be at book value.

2.6 Transfer of Services

The provision of corporate services will be subject to written contracts that, as applicable, identify the personnel, assets, and services that will be provided. The services will be provided on a fully loaded cost basis. The RegCo, HoldCo, ServiceCo, Unregulated Competitive Energy Affiliates, Unregulated Affiliates, National Grid FERC Regulated Affiliates, and National Grid Other Affiliates may be covered by common property/casualty and other business insurance policies. The costs of such policies will be allocated among the RegCo, HoldCo, ServiceCo, Unregulated Competitive Affiliates, Unregulated Affiliates, National Grid FERC Regulated Affiliates, and National Grid Other Affiliates in an equitable manner.

3. Human Resources

3.1 Separation of Employees and Officers

RegCo will have separate employees from Unregulated Affiliates and Unregulated Competitive Energy Affiliates. Operating officers (*i.e.*, those officers providing other than corporate services) of RegCo will not be operating officers of any of the Unregulated Affiliates and Unregulated Competitive Energy Affiliates. Operating officers of RegCo that engage in legal or policy advocacy before FERC or the Commission will not be officers of National Grid FERC Regulated Affiliates. Other RegCo officers, such as Information Technology and Human Resource officers or their supervisors, may be officers of National Grid FERC Regulated Affiliates. An officer of HoldCo may not be an officer of both RegCo and an Unregulated Affiliate or Unregulated Competitive Energy Affiliate. No RegCo employee or officer will also be an employee, officer or director of any unaffiliated competitive energy firm engaged in the exploration or production, generation, retail energy services, DER, or HVAC services in RegCo's service territory. No RegCo employee or officer will also be an employee, officer or director of any unaffiliated firm engaged in competitive retail services that KEDNY or KEDLI contracts for or provides.

3.2 Employee Transfers

3.2.1 If a RegCo employee accepts a position with an Unregulated Affiliate or Unregulated Competitive Energy Affiliate, he or she will be required to resign from RegCo unless there is a conflict with the collective bargaining agreement, in which case the collective bargaining agreement would control. Any such employee will be prohibited from copying or taking any non-public customer or competitively sensitive market information from RegCo.

3.2.2 Employees may be transferred from RegCo to an Unregulated Affiliate or Unregulated Competitive Energy Affiliate. Transferred employees may not be reemployed by RegCo for a minimum of one year after transfer. Employees returning to RegCo may not be transferred again to an Unregulated Affiliate or Unregulated Competitive Energy Affiliate for a minimum of one year. RegCo will file annual reports to the Commission showing transfers between RegCo and Unregulated Affiliates or Unregulated Competitive Energy Affiliate by employee name, former company, former position, new company, new position, and salary or annualized base compensation. There will not be any temporary employee transfers between RegCo or US HoldCo and any Unregulated Affiliates.

3.2.3 Except as provided in this Section 3.2, employees may be transferred from RegCo to HoldCo, or to a National Grid FERC Regulated Affiliate and/or a National Grid Other Affiliate (and vice-versa) without restriction.

3.3 Employee Loans in an Emergency

The foregoing provisions in no way restrict any affiliate from loaning employees to RegCo to respond to an emergency that threatens the safety or reliability of service to consumers.

3.4 Compensation for Transfers to Other than a Transmission or Distribution Company

A one time employee transfer credit equal to 25% of the employee's annual salary will be applied to the deferral account for each transfer from RegCo to any Unregulated Competitive Energy Affiliate.

3.5 Employee Compensation and Benefits

The compensation of RegCo employees and officers may not be tied to the financial and/or stock performance of any Unregulated Competitive Energy Affiliate or National Grid Other Affiliate, but may be tied to the financial performance of HoldCo and stock performance of UK HoldCo.

Employees of HoldCo, RegCo, ServiceCo, Unregulated Affiliates, Unregulated Competitive Energy Affiliates, National Grid FERC Regulated Affiliates, and National Grid Other Affiliates may participate in common pension and benefit plans.

3.6 Legal Representation

With respect to all matters handled by outside counsel, HoldCo and its affiliates shall instruct outside counsel to take all reasonable steps to ensure that non-public customer and competitively sensitive information in the position of RegCo is not communicated to an affiliate.

4. Reporting

Annually, RegCo will file reports on: transfers of assets, cost allocations, employee transfers and employees in common benefit plans.

5. Access to Books, Records and Reports

Staff will have full access, on reasonable notice, and subject to resolution of confidentiality and privilege (*e.g.*, attorney client, attorney work product, self-critical) issues, to: (i) the books and records of UK HoldCo and of the US HoldCo and its majority owned subsidiaries; and (ii) the books and records of all other HoldCo subsidiaries or affiliates, in English, to the extent necessary to audit and monitor any transactions that have occurred between RegCo and such subsidiaries or affiliates. Such access to books and records will be provided at National Grid's MetroTech headquarters.

DPS Staff currently receive copies of a number of internal utility documents. It is the Companies' intention to continue to provide information with a similar scope and content to that currently provided. However, the Companies may wish to modify the form and/or content of their internal documents from time to time. In such cases, the Companies will discuss and agree with Staff the ongoing information requirements and the most appropriate way for them to be met in the future.

6. Standards of Competitive Conduct

The following standards of competitive conduct will govern RegCo's relationship with any Unregulated Competitive Energy Affiliates, Unregulated Affiliates or National Grid Other Affiliates, in addition to any already covered by the Commission's rules governing Uniform Business Practices.

6.1 Use of Corporate Name and Royalties

There are no restrictions on any affiliate using the same name, trade names, trademarks, service names, service marks or a derivative of a name of the HoldCo or RegCo, or in identifying itself as being affiliated with the HoldCo or RegCo. However, no non-National Grid company will be allowed to use the same name, trade names, trademarks, service names, service marks or a derivative of a name of RegCo in any manner, except for the purposes of assisting with the marketing of Commission approved energy efficiency programs. Further, no non-National Grid company will be allowed to use the same name, trade names, trademarks, service names, service marks or a derivative of a name of HoldCo in New York State for a period exceeding 6 months, provided that such use will be limited to the situation where National Grid has sold the relevant business (or the assets of the business) and restricted to (i) use of the National Grid logo during the pendency of the transition to new ownership (*e.g.*, vehicle and facility signage) and (ii) educating customers about the sales transaction and the impacts on customers. During that 6 month period, DPS Staff will be given the opportunity to preview any communication using National Grid's name or logo that is to be sent from a non-National Grid company to National Grid's utility customers in New York. DPS Staff may, in the exercise of reasonable discretion, reject any customer communication it deems not in compliance with this section by providing National Grid with written notice of its specific objections. A communication will be deemed acceptable unless DPS Staff objects in a writing received by the Companies within five business days of Staff's receipt of such communication from National Grid. DPS Staff and the Companies will work collaboratively to resolve any disagreement as to the content of the communication.

6.2 Sales Leads

RegCo will not provide sales leads involving customers in its service territory to any affiliated or non-affiliated companies without the advanced permission of the Commission.

6.3 Customer Inquiries

If a customer requests information about securing any service or product offered by energy services companies ("ESCos"), the RegCo may provide a list of all known ESCos operating in the area, which may include its Unregulated Competitive Energy Affiliate(s).

6.4 Customer Information

Except for purposes of complying with applicable statutes, regulations and orders, RegCo will not disclose to any Unregulated Competitive Energy Affiliate(s), Unregulated Affiliate(s) or non-

affiliates any customer information about its gas business that may provide a competitive advantage in the gas markets. Customer information includes, but is not limited to, confidential information that RegCo receives from a customer, prospective customer, or marketer that is not available from sources other than RegCo, unless RegCo makes such information available to all competitors on an equal basis.

RegCo shall restrict access to customer information to only those employees of RegCo, or affiliates or non-affiliates, whose functions require that they have access to such information. Such employees shall be instructed to maintain the confidentiality of such information.

6.5 No Advantage Gained by Dealing with Affiliate

6.5.1 RegCo will refrain from giving any appearance that RegCo speaks on behalf of an affiliate or that an affiliate, other than ServiceCo, speaks on behalf of the RegCo. RegCo will not participate in any joint promotion or marketing with its Unregulated Competitive Energy Affiliates or Unregulated Affiliates.

6.5.2 RegCo will not represent to any customer, supplier or third party that an advantage may accrue to such customer, supplier or third party in the use of the RegCo's services as a result of that customer, supplier or third party dealing with any affiliate.

6.5.3 RegCo's affiliates will not represent to any customer, supplier or third party that an advantage may accrue to such customer, supplier or third party in the use of the RegCo's services as a result of that customer, supplier or third party dealing with that affiliate.

6.5.4 RegCo will not cross-subsidize National Grid FERC Regulated Affiliates or any Unregulated Competitive Energy Affiliate(s) or Unregulated Affiliate(s).

6.5.5 Release of proprietary customer information relating to customers within the RegCo's service territory shall be subject to prior authorization by the customer and subject to the customer's direction regarding the person(s) to whom such information may be released. If a customer authorizes the release of information to a RegCo affiliate and one or more of the affiliate's competitors, RegCo shall make that information available to the affiliate and such competitors on an equal basis.

6.5.6 RegCo will not disclose to its affiliates any customer or marketer information relative to its service territory that it receives from a marketer, customer, or potential customer that is not available from sources other than RegCo, unless it discloses such information to its affiliates' competitors contemporaneously on an equal basis to the extent practicable.

6.5.7 RegCo will use competitive bidding practices or standard offers to purchase DER until such time as the Commission determines otherwise. If a

RegCo affiliate participates in a competitive bidding process undertaken by RegCo for DER procurement, RegCo will engage an independent party to monitor the procurement selection process.

6.5.8 These provisions do not restrict the use of the name of HoldCo or RegCo as set forth in Section 6.1.

6.6 No Rate Discrimination

All similarly situated customers, including ESCos and customers of ESCos, whether affiliated or unaffiliated, will pay the same rates for the RegCo's utility services, including those related to interconnections and dispatch. If there is discretion in the application of any tariff provision, RegCo must not offer its affiliate more favorable terms and conditions than it has offered to all similarly situated competitors of the affiliate. Should RegCo provide to an ESCo or a customer of an ESCo, whether affiliated or unaffiliated, a delivery, billing, metering, or other service set forth in its tariffs or associated operating procedures, at a discounted or negotiated rate or pursuant to a special arrangement, RegCo will expeditiously post on its website the information that the Commission requires a utility to file in association with providing a discounted or negotiated rate or special arrangement, subject to the Commission's trade secret rules, if applicable, in the same manner and within the same time period for affiliates and non-affiliates.

7. Annual Meeting

Senior management of RegCo and US HoldCo will meet annually with senior Commission Staff to discuss the Companies' plans related to capital attraction and financial performance.

8. Training and Certification/Adherence to Standards

8.1 Training and Certification

8.1.1 US HoldCo and RegCo will conduct training on these principles for officers, directors and senior managers. On an annual basis, designated officers should provide certification to the PSC of the companies' adherence to these standards.

8.1.2 Additionally, all RegCo management employees shall receive annual training on Section 6, Standards of Competitive Conduct, to include the types of information that may or may not be shared, and RegCo policies and procedures restricting information sharing, with verification that such training has been completed.

8.2 Adherence to Standards

If the Commission at any time makes a finding that it believes that compliance with these provisions has been lacking, the Commission can order RegCo to pay for an independent auditor review of all applicable transactions and/or allocations.

9. Commercialization of Products and Technologies Developed as a Result of Research and Development

The Companies' affiliates may invest in commercialization of R&D products and technologies developed by RegCo consistent with its affiliate rules. If an affiliate elects to invest, it will fairly compensate RegCo, assume the business risk(s) and will be entitled to the benefits associated with that investment.

10. Dispute Resolution

If any competitor, whether an affiliated or non-affiliated company, or customer of RegCo, believes that RegCo has acted in violation of Section 2, Rules Governing Affiliate Transactions, and/or Section 6, Standards of Competitive Conduct, such competitor or customer may provide RegCo with a written notice of the complaint. RegCo will respond to any such complaint within twenty (20) business days after receipt of the complaint. Within fifteen (15) business days after responding to such complaint, the parties will meet in an attempt to resolve the matter informally. If the parties do not meet or do meet, but are not successful in resolving the matter informally, then the complainant may refer the matter to the Commission for disposition, within fifteen (15) business days of receiving RegCo's response, or in the event the parties meet, within fifteen (15) business days of such meeting. The Commission shall maintain continuing jurisdiction over Section 2, Rules Governing Affiliate Transactions, and Section 6, Standards of Competitive Conduct. The dispute resolution process will also be posted on RegCo's website.

Appendix 11

BUDGET INFORMATION

KEDNY's Estimated Outreach & Education Budget for January – December:

Provide a budget breakdown of the FY'XX Estimated Budget for Outreach and Education Expenditures. Please make it clear whether your winter budget is part of your overall budget. Spending details should be included in the topic-specific pages found in Section 4.
