Re: Opposition to
Case 19-G-0309 – Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of The Brooklyn Union Gas Company d/b/a National Grid NY for Gas Service Case
19-G-0310 – Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of KeySpan Gas East Corporation d/b/a National Grid for Gas Service

Dear Secretary Phillips:

Please find my statement of opposition to The Company's Joint Proposal for filing in the above-mentioned cases.

I am an unemployed person who receives public assistance. I manage a building and make art. We do not need these pipelines in the first place. To raise our rates even a bit is unacceptable. I oppose the Joint Proposal and ask the Public Service Commission to take responsibility for our future, and figure out ways to go forward that don't harm people who are already facing so many challenges. Making us pay for the pipeline and the LNG, when we don't even need it, is protecting National Grid, not the people of New York City. And further, we are facing a climate disaster, and the Public Service Commission is deciding to listen to National Grid, a for profit corporation, instead of listening to the science. Floods and fires and the extinction of so many species, and diseases like COVID are the huge evidence of what is happening on the planet. No one, anywhere, should be increasing fossil fuel.

Please do not allow this project to go forward and raise the people's natural gas costs.

Respectfully submitted,
Barbara Hertel
