Case 25-E-0072 & Case 25-G-0073

RE: CPA Statement in Support of the Joint Proposal

Dear Secretary Phillips:

Pursuant to your Ruling on Process and Schedule in the above referenced proceedings, please consider this letter as a Statement in Support of the Joint Proposal ("JP") filed on behalf of Consumer Power Advocates ("CPA"). CPA is an association of large, non-profit institutions whose primary goal is to decrease the cost of energy in an environmentally sustainable way by focusing on regulatory decisions and programs that impact energy consumers in New York City.

CPA is a signatory to the JP in these proceedings, which covers a three year Con Edison electric and gas rate plan from January 1, 2026 through December 31, 2029. By this letter statement in support, CPA respectfully requests that your Honors recommend to the Commission adoption of the JP in the above referenced proceeding as agreed to by the party signatories (the “Parties”and filed with the Commission's Secretary.

CPA believes that the provisions of the JP are in the best interest of the public in general and of the signatories in particular because of the significant negotiated reductions by the Parties from the amounts originally sought by the Company, as well as other provisions in the JP which reflect a negotiated compromise. In addition, the JP recognizes and endorses the commitment to billing transparency advocated in our testimony in this rate case. We are particularly pleased to see a commitment to publicize on individual electric and gas bills the impact of property taxes on such bills, starting no later than the beginning of Rate Year 2.

Based upon the extensive period of negotiations and discussions among the Parties and Con Edison, held over a period of more than seven months in these cases, and after weighing the probable costs of further litigation, CPA believes that the JP confers upon the public and the Parties greater benefits than costs and falls within the expected range of results likely to realized in a fully litigated case. Accordingly, the JP should be approved by the Commission.

865 State Route 33, Ste 3 PMB 1077,
Freehold NJ 07728

Respectfully submitted,

/s/ Jonathan Moore
