Company Name: Con Edison
Case Description: 2025 CECONY Electric and Gas Rate Cases
Case: 25-E-0072, 25-G-0073

Response to Independent Intervenors Interrogatories – Set II-2
Date of Response: November 20, 2025
Responding Witness: N/A

Question No. :2
(1) How much added revenue is in the JP to support the "Climate Leadership and Community Protection Act ('CLCPA') Goals" as referred to on page 2 of the Summary of the JP?
(2) How much added revenue is in the JP to "enhance the electric system in anticipation of transportation and building electrification" as referred to on page 2 of the Summary of the JP?
(3) How much added revenue is in the JP to "facilitate the clean energy transition," as referred to on page 2 of the Summary of the JP?
(4) How much added revenue is in the JP to "encourage the development of alternative heating options, including ground- and air-source heat pumps" as referred to on page 3 of the Summary of the JP?
(5) How much added revenue is in the JP to "enhance Information Technology systems and processes supporting the adoption and integration of renewable energy resources," as referred to on page 3 of the Summary of the JP?
(6) The Joint Proposal contains rate increases to pay for hundreds of millions of dollars of spending by Con Ed to provide for delivery of additional electric service to support building and vehicle electrification. Simultaneously the State has mandated closure of multiple existing natural gas power plants during the three-year rate period, and NYISO has warned that there will be insufficient generation to support even existing levels of usage. What is the basis to believe that there will be sufficient electricity generation capacity to support the building and vehicle electrification projects in the "Interference - Electric", "New Business Capital"; "Non-Network Resiliency Cutout" that are included in Appendix 11 of the JP.

Response

(1) We object to this interrogatory on the grounds that it is overbroad, vague or otherwise seeks information that exceeds the scope of this proceeding. Notwithstanding and without waiving this objection, the Company and Staff note that many programs, projects, and multi-value investments provide safety, reliability and clean energy benefits that cannot be properly tracked and segregated by the category requested.

(2) See response to 2-1 above.

(3) See response to 2-1 above.

(4) See response to 2-1 above.

(5) See response to 2-1 above.

(6) We object to this interrogatory on the grounds that it is overbroad, vague or otherwise seeks information that exceeds the scope of this proceeding.
