CASE 25-E-0072 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Consolidated Edison Company of New York, Inc. for Electric Service.

CASE 25-G-0073 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Consolidated Edison Company of New York, Inc. for Gas Service.

ORDER ON EXTENSION OF MAXIMUM SUSPENSION PERIOD FOR MAJOR RATE FILINGS

(Issued and Effective December 18, 2025)

BY THE COMMISSION:

INTRODUCTION

On January 31, 2025, Consolidated Edison Company of New York, Inc. (Con Edison or the Company) filed amendments to its tariff schedules, P.S.C. Nos. 10 and 12 – Electricity and P.S.C. No. 9 – Gas, to increase its annual electric and gas delivery revenues for the rate year ending December 31, 2026.

Con Edison is requesting an increase in annual electric delivery revenues of approximately $1,612 million (an 18.0 percent increase in base delivery revenues, or an 11.4 percent increase in total revenues) compared to the

revenues approved in the Company's currently effective rate plan.[1] Con Edison states its requested increase in electric delivery revenues would result in a typical residential monthly delivery bill increase of $26.60 (a 19.1 percent increase on the delivery bill, or a 13.4 percent increase on the total bill) for a 600 kilowatt-hours per month customer.

For its gas business, Con Edison is requesting an increase in annual gas delivery revenues of approximately $440 million (an 18.8 percent increase in base delivery revenues, or a 13.3 percent increase in total revenues) compared to the revenues approved in the 2023 Rate Order. Con Edison states its requested increase in gas delivery revenues would result in a monthly delivery bill increase of about $46.42 (a 25.1 percent increase on the delivery bill, or a 19.1 percent increase on the total bill) for a typical residential heating customer using 100 therms per month.

On April 10, 2025, Con Edison filed corrected and updated testimony. Con Edison decreased its proposed electric delivery revenue by approximately $3 million from approximately $1.611 billion to approximately $1,608 million and decreased its proposed gas delivery revenue by approximately $91.5 million from approximately $440.5 million to approximately $349 million.

By Notices issued by the Secretary to the Commission dated February 13, 2025, and June 3, 2025, the Secretary pursuant to authority delegated to her,[2] suspended the captioned

[1] Cases 22-E-0064 and 22-G-0065, Consolidated Edison Company of New York, Inc. – Rates, Order Adopting Terms of Joint Proposal and Establishing Electric and Gas Rate Plans with Additional Requirements (issued July 20, 2023) (2023 Rate Order).

[2] Case 09-M-0207, Delegation of Authority to the Secretary Concerning Tariff Filing Suspensions, Order Delegating Authority (issued September 18, 2009).

proceedings through December 30, 2025, unless otherwise ordered by the Commission.

DISCUSSION AND CONCLUSION

On June 24, 2025, the Company filed a letter agreeing to extend the maximum suspension period of these proceedings through February 28, 2026.[3] The Company requested the extension to provide additional time for parties to continue settlement discussions in these proceedings. The request is subject to a "make-whole" provision that the Company states would keep Con Edison and its customers in the same economic position as it would have been absent the extension. The Company's letter stated it understands "make-whole" to mean the Company would recover or refund any revenue under-collections or over-collections, respectively, including interest, resulting from the extended suspension period. The Company would calculate any revenue adjustments as the difference between sales revenues Con Edison would have billed at the new rates during the extension of the suspension period and the same level of sales revenues at current rates. The revenue adjustments would include all applicable surcharges and would be subject to reconciliation in accordance with all applicable adjustment mechanisms (including revenue decoupling mechanisms, where applicable). In addition, Con Edison proposes the amortization of net deferrals reflected in the Commission's order will commence effective with the month of January 2026, on an earnings neutral basis.

[3] The Company filed a subsequent letter dated August 15, 2025, in which it consented to further extend the maximum suspension period to April 29, 2026. If necessary, the Commission will consider further extensions in a future order.

Staff of the Department of Public Service filed a joint proposal on November 5, 2025, signed by various parties to these proceedings. To facilitate the orderly conduct of these proceedings and to provide time for parties and the Commission to consider the joint proposal, the effective date of the tariff leaves filed by the Company is further extended through February 28, 2026, unless otherwise ordered by the Commission. In addition, the Company will be provided a make whole provision for the period it requested.

The Commission orders:

1. The operation of the matters suspended by the Notices issued February 13, 2025, and June 3, 2025, in these proceedings, is further suspended and the use of the rates, charges, rules and regulations stated in said Notices be further extended through February 28, 2026, unless otherwise ordered by the Commission.

2. Consolidated Edison Company of New York, Inc. is directed to file with the Commission, on not less than one day's notice on or before December 22, 2025, consecutively numbered supplements announcing the extension of the suspension period of suspended amendments.

3. Consolidated Edison Company of New York, Inc. shall be made whole for the period between January 1, 2026, and the date the Commission sets new rates, charges, rules and regulations in the final decision in these proceedings.

4. These proceedings are continued.

By the Commission,

(SIGNED) MICHELLE L. PHILLIPS
Secretary

SUBJECT: Filings by CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.
