Before the Public Service Commission

THE BROOKLYN UNION GAS COMPANY d/b/a NATIONAL GRID NY

Direct Testimony

of

The Revenue Requirements Panel

Part 2 of 2

Dated: April 28, 2023

INDEX OF EXHIBITS

Exhibit ___(RRP-1):	Statement of Gas Operating Incomes, by Component, for the Historic Test Year Ended December 31, 2022, Rate Year Ending March 31, 2025, and Data Years Ending March 31, 2026, March 31, 2027, and March 31, 2028
Exhibit ___ (RRP -2):	Summary of Normalizing Analysis and Adjustments
Exhibit ___ (RRP -3):	Gas O&M Expenses by Expense Type for the Historic Test Year Ended December 31, 2022, Rate Year Ending March 31, 2025, and Data Years Ending March 31, 2026, March 31, 2027, and March 31, 2028
Exhibit ___ (RRP -4):	Gas Depreciation Expenses for the Historic Test Year Ended December 31, 2022, Rate Year Ending March 31, 2025, and Data Years Ending March 31, 2026, March 31, 2027, and March 31, 2028
Exhibit ___ (RRP -5):	Gas Taxes Other than Income Taxes for the Historic Test Year Ended December 31, 2022, Rate Year Ending March 31, 2025, and Data Years Ending March 31, 2026, March 31, 2027, and March 31, 2028
Exhibit ___ (RRP -6):	Gas Federal and State Income Taxes for the Historic Test Year Ended December 31, 2022, Rate Year Ending March 31, 2025, and Data Years Ending March 31, 2026, March 31, 2027, and March 31, 2028
Exhibit ___ (RRP -7):	Gas Rate Bases for the Historic Test Year Ended December 31, 2022, Rate Year Ending March 31, 2025, and Data Years Ending March 31, 2026, March 31, 2027, and March 31, 2028
Exhibit ___ (RRP -8):	Table of Inflation Factors
Exhibit ___ (RRP -9):	Deferral Exhibit
Exhibit ___ (RRP -10):	Various Historic Financial Exhibits for Calendar Years 2018 through 2021
Exhibit ___ (RRP -11):	Workpaper Data Supporting Certain Exhibits

Exhibit_____(RRP-11)

Workpaper Data Supporting Certain Exhibits

SCHEDULE 1

Additional Review of Historic Test Year Costs

Mr. Michael Dixon
National Grid USA
2 Hanson Place
Brooklyn, NY 11217

Dear Mike,

Subject: April 1, 2022 to March 31, 2023 ASC 712 Expense Results—KeySpan

Enclosed is the fiscal year 2023 ASC 712 expense valuation for KeySpan. The valuation is based on January 1, 2022 data provided by National Grid. Based on a 3.35 percent discount rate assumption, the incremental operating **income** for the period April 1, 2022 through March 31, 2023 is $3.0 million.

Fiscal Year 2023 Valuation Results

The plan's overall experience in fiscal year 2023 was more favorable than budgeted. In aggregate, March 31, 2022 liability was $0.9 million lower than expected.

The key items that impacted the liability included:

- A change in discount rate from 2.25% to 3.35%,
- Higher than expected number of terminations and recoveries,
- Favorable claims experience and trend assumption; offset by
- Higher than expected new claimants' liabilities

Enclosed is a summary of expense/(income) by business unit, as well as a summary of the assumptions and benefit provisions used in the valuation.

Preparation of this Actuarial Valuation

This valuation has been prepared to present to management the necessary information to comply with ASC 712-10 for the fiscal year ending March 31, 2023. Determinations for purposes other than financial accounting requirements may be significantly different from the results reported herein. Thus, the use of this information for purposes other than those expressed here may not be appropriate. The results as of other dates may also be significantly different from the results reported herein.

In conducting the valuation, we have relied on personnel, plan design and health care claim cost supplied by National Grid. While we cannot verify the accuracy of all of the supplied information, the information was reviewed for consistency and reasonability. As a result of this review, we have no reason to doubt the substantial accuracy or completeness of the information and believe that it has produced appropriate results.

This valuation has been conducted in accordance with generally accepted actuarial principles and practices, including the applicable Actuarial Standards of Practice as issued by the Actuarial Standards Board. In addition, the valuation results are based on our understanding of the requirements of ASC 712-10. The information in this report is not intended to supersede or supplant the advice and interpretations of National Grid's auditors.

The actuarial assumptions and methods used in this valuation are described in the ASC 712 Assumptions and Methods section. National Grid selected the economic, demographic, and health care claims cost assumptions and prescribed them for use for purposes of compliance with ASC 712-10. Aon provided guidance with respect to these assumptions, and it is our belief that they represent reasonable expectations of anticipated plan experience. The actuarial cost method is prescribed by ASC 712-10.

A valuation model was used to develop the liabilities for the March 31, 2022 valuation. The valuation model relies on ProVal software, which was developed by Winklevoss Technologies, LLC. Experts within Aon selected this software and determined it is appropriate for performing valuations. We coded and reviewed the software for the provisions, assumptions, methods, and data of the specific for this arrangement. The undersigned relied on experts at Aon for the development of the capital market assumptions models underlying the discount rate.

Models are used to estimate underlying per capita medical, prescription drug and dental claims costs and plan design actuarial values, subsequently utilized as assumption inputs for valuation models used to develop the liabilities for the 2022 and future valuations. The models used for the development of plan design actuarial values were developed by experts outside of Aon, specifically Optum. The Aon consulting team leveraged expertise of Health experts within Aon as it relates to reviewing the models developed by experts outside of Aon, and those used for development of the per capita claims costs and future trend rates.

In addition to the valuation model, results rely on a custom Microsoft Excel model to develop the IBNR liability. The model was developed and reviewed by Aon LTD team members and evaluated as appropriate for performing IBNR calculations.

Cost of Medical Coverage

The medical claims costs reflect the expected impact of the Health Care reform, including eligibility expansion to include dependent children up to age 26, elimination of lifetime maximums, and 100% in-network preventive care coverage.

Disabled participants are assumed to generate medical costs which vary with duration from disability:

Mr. Michael Dixon
National Grid USA
2 Hanson Place
Brooklyn, NY 11217

Dear Michael,

Subject: April 1, 2022 to March 31, 2023 ASC 712 Expense Results—New England

Enclosed is the fiscal year 2023 ASC 712 expense valuation for New England. The valuation is based on January 1, 2022 data provided by National Grid. Based on a 3.35 percent discount rate assumption, the incremental operating **income** for the period April 1, 2022 through March 31, 2023 is $1.5 million.

Fiscal Year 2023 Valuation Results

The plan's overall experience in fiscal year 2023 was more favorable than budgeted. In aggregate, March 31, 2022 liability at year-end was $3.2 million lower than expected.

The key items that impacted the liability included:

- Narragansett and NE Gas participants were transferred to PPL as of 5/25/22
- A change in discount rate from 2.25% to 3.35%,
- Higher than expected number of terminations and recoveries, and
- Favorable claims experience and trend assumptions; offset by
- Higher than expected new claimants' liabilities

Enclosed is a summary of expense/(income) by company, as well as a summary of the assumptions and benefit provisions used in the valuation.

Preparation of this Actuarial Valuation

This valuation has been prepared to present to management the necessary information to comply with ASC 712-10 for the fiscal year ending March 31, 2023. Determinations for purposes other than financial accounting requirements may be significantly different from the results reported herein. Thus, the use of this information for purposes other than those expressed here may not be appropriate. The results as of other dates may also be significantly different from the results reported herein.

In conducting the valuation, we have relied on personnel, plan design and health care claim cost supplied by National Grid. While we cannot verify the accuracy of all of the supplied information, the information was reviewed for consistency and reasonability. As a result of this review, we have no reason to doubt the substantial accuracy or completeness of the information and believe that it has produced appropriate results.

This valuation has been conducted in accordance with generally accepted actuarial principles and practices, including the applicable Actuarial Standards of Practice as issued by the Actuarial Standards Board. In addition, the valuation results are based on our understanding of the requirements of ASC 712-10. The information in this report is not intended to supersede or supplant the advice and interpretations of National Grid's auditors.

The actuarial assumptions and methods used in this valuation are described in the ASC 712 Assumptions and Methods section. National Grid selected the economic, demographic, and health care claims cost assumptions and prescribed them for use for purposes of compliance with ASC 712-10. Aon provided guidance with respect to these assumptions, and it is our belief that they represent reasonable expectations of anticipated plan experience. The actuarial cost method is prescribed by ASC 712-10.

A valuation model was used to develop the liabilities for the March 31, 2022 valuation. The valuation model relies on ProVal software, which was developed by Winklevoss Technologies, LLC. Experts within Aon selected this software and determined it is appropriate for performing valuations. We coded and reviewed the software for the provisions, assumptions, methods, and data of the specific for this arrangement. The undersigned relied on experts at Aon for the development of the capital market assumptions models underlying the discount rate.

Models are used to estimate underlying per capita medical and prescription drug claims costs, subsequently utilized as assumption inputs for valuation models used to develop the liabilities for the 2022 and future valuations. The Aon consulting team leveraged expertise of Health experts within Aon as it relates to reviewing the models used for the development of the per capita claims costs and future trend rates.

In addition to the valuation model, results rely on a custom Microsoft Excel model to develop the IBNR liability. The model was developed and reviewed by Aon LTD team members and evaluated as appropriate for performing IBNR calculations.

If you have any questions, please call.

Sincerely,

Aon

February 22, 2023

Mr. Michael Dixon
National Grid USA
2 Hanson Place
Brooklyn, NY 11217

Dear Michael,

Subject: April 1, 2022 to March 31, 2023 ASC 712 Expense Results—Niagara Mohawk

Enclosed is the fiscal year 2023 ASC 712 expense valuation for Niagara Mohawk. The valuation is based on January 1, 2022 data provided by National Grid. Based on a 3.35 percent discount rate assumption, the incremental operating **expense** for the period April 1, 2022 through March 31, 2023 is $2.9 million.

Fiscal Year 2023 Valuation Results

The plan's overall experience in fiscal year 2023 was less favorable than budgeted. In aggregate, the projected liability at year-end was $4.6 million higher than expected.

The key items that impacted the liability included:

- Higher than expected new claimants' liabilities,
- Increase in income benefits payable for those in receipt of benefits,
- Increase in salary for actives, offset by
- Higher than expected number of terminations and recoveries
- Favorable claims experience;
- A change in discount rate from 2.25% to 3.35%

Enclosed is a summary of expense/(income), as well as a summary of the assumptions and benefit provisions used in the valuation.

Preparation of this Actuarial Valuation

This valuation has been prepared to present to management the necessary information to comply with ASC 712-10 for the fiscal year ending March 31, 2023. Determinations for purposes other than financial accounting requirements may be significantly different from the results reported herein. Thus, the use of this information for purposes other than those expressed here may not be appropriate. The results as of other dates may also be significantly different from the results reported herein.

In conducting the valuation, we have relied on personnel, plan design and health care claim cost supplied by National Grid. While we cannot verify the accuracy of all of the supplied information, the information was reviewed for consistency and reasonability. As a result of this review, we have no reason to doubt the substantial accuracy or completeness of the information and believe that it has produced appropriate results.

This valuation has been conducted in accordance with generally accepted actuarial principles and practices, including the applicable Actuarial Standards of Practice as issued by the Actuarial Standards Board. In addition, the valuation results are based on our understanding of the requirements of ASC 712-10. The information in this report is not intended to supersede or supplant the advice and interpretations of National Grid's auditors.

The actuarial assumptions and methods used in this valuation are described in the ASC 712 Assumptions and Methods section. National Grid selected the economic, demographic, and health care claims cost assumptions and prescribed them for use for purposes of compliance with ASC 712-10. Aon provided guidance with respect to these assumptions, and it is our belief that they represent reasonable expectations of anticipated plan experience. The actuarial cost method is prescribed by ASC 712-10.

A valuation model was used to develop the liabilities for the March 31, 2022 valuation. The valuation model relies on ProVal software, which was developed by Winklevoss Technologies, LLC. Experts within Aon selected this software and determined it is appropriate for performing valuations. We coded and reviewed the software for the provisions, assumptions, methods, and data of the specific for this arrangement. The undersigned relied on experts at Aon for the development of the capital market assumptions models underlying the discount rate.

Models are used to estimate underlying per capita medical and prescription drug claims costs, subsequently utilized as assumption inputs for valuation models used to develop the liabilities for the 2022 and future valuations. The Aon consulting team leveraged expertise of Health experts within Aon as it relates to reviewing the models used for the development of the per capita claims costs and future trend rates.

In addition to the valuation model, results rely on a custom Microsoft Excel model to develop the IBNR liability. The model was developed and reviewed by Aon LTD team members and evaluated as appropriate for performing IBNR calculations.

If you have any questions, please call.

Sincerely,

Aon

Customer Initiatives

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Digital	Project:	Proactive Comms & Preferences	Maturity Stage:	Deliver	Project Code: PRJ-586

Business Area:	Customer	Operating Companies Affected:	KEDLI, KEDNY, NMPC

PROGRAM DESCRIPTION

Today, the Company utilizes different IT platforms and vendors to conduct proactive outreach with customers (e.g., emails alerting customers that their bill is coming due or that they can pay online). This initiative seeks to streamline these outreach efforts into a centralized platform (Salesforce Marketing Cloud). The projected savings reflect reduced vendor costs and enhanced productivity.

The savings in the HTY of $0.144 million for KEDLI and $0.314 million for KEDNY is more than what the Company forecasts for the Rate Year ($0.115 million for KEDLI and $0.259 million for KEDNY). For revenue requirement purposes, the Company reflected the HTY amount and did not make a normalizing adjustment to lower those savings.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Digital	Project:	My Business Account	Maturity Stage:	Deliver	Project Code: PRJ-587

Business Area:	Customer	Operating Companies Affected:	KEDLI, KEDNY, NMPC

PROGRAM DESCRIPTION

This initiative involved the creation of a web site portal to better engage with commercial customers. This allows the Company to become more proactive, in turn, enhancing customer satisfaction and productivity.

The savings in the HTY of $0.178 million for KEDLI and $0.402 million for KEDNY is more than what the Company forecasts for the Rate Year ($0.160 million for KEDLI and $0.367 million for KEDNY). For revenue requirement purposes, the Company reflected the HTY amount and did not make a normalizing adjustment to lower those savings.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Digital	Project:	UWP (Launch)	Maturity Stage:	Deliver	Project Code: PRJ-159
Business Area:	Customer	Operating Companies Affected:	KEDNY, KEDLI, NMPC			

PROGRAM DESCRIPTION

Unified Web Portal – This initiative involved work to upgrade our platform and refresh our website. Benefits include a better user experience and better customer interactions. With a more customer-friendly format, customers will engage in more self-service, thereby reducing call volumes and customer service representative interactions.

The savings in the HTY of $0.211 million for KEDLI and $0.476 million for KEDNY is more than what the Company forecasts for the Rate Year ($0.163 million for KEDLI and $0.370 million for KEDNY). For revenue requirement purposes, the Company reflected the HTY amount and did not make a normalizing adjustment to lower those savings.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Zero Based Redesign (ZBR)	Project:	Optimize Front Office Service Delivery Model	Maturity Stage:	Deliver	Project Code: PRJ-1715

Business Area:	Customer	Operating Companies Affected:	KEDNY, KEDLI, and NMPC

PROGRAM DESCRIPTION

The Front Office is the Customer Call Center team. The initiative seeks to ensure that our internal and external call center have the right level of resources and look for ways to optimize our workforce mix. Benefits include enhanced customer satisfaction, enhanced productivity, and vendor savings.

This initiative benefits all NY operating companies. The HTY reflects $0.362 million and $0.951 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.243 million for KEDLI and $0.692 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings from this initiative for KEDLI and KEDNY is $0.605 million and $1.644 million, respectively.

The Rate Year forecast costs to achieve these savings are $0.049 million for KEDLI and $0.104 million for KEDNY.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Zero Based Redesign (ZBR)	Project:	Eliminate Calls with Self-Service	Maturity Stage:	Deliver	Project Code: PRJ-1716

Business Area:	Customer	Operating Companies Affected:	KEDLI, KEDNY, NMPC

PROGRAM DESCRIPTION

This initiative seeks ways to encourage customers to self-service via the web or chat bots. Benefits include enhanced customer satisfaction through reduced hold times together with enhanced productivity. Key dependencies for successful delivery of this initiative are the CRIS to CSS conversion (C2C project) and IT updates to the IVR.

The initiative benefits all NY operating companies. The HTY reflects $0.622 million and $1.633 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.950 million for KEDLI and $2.636 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings from this initiative for KEDLI and KEDNY is $1.573 million and $4.270 million, respectively.

The Rate Year forecast costs to achieve these savings are $0.240 million for KEDLI and $0.504 million for KEDNY.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Zero Based Redesign (ZBR)	Project:	Minimize Call AHT	Maturity Stage:	Deliver	Project Code: PRJ-1717

Business Area:	Customer	Operating Companies Affected:	KEDNY, KEDLI, NMPC

PROGRAM DESCRIPTION

The other Customer ZBR and Customer Digital initiatives are intended to help drive down call volumes to improve call center representatives' average handle time. Even with these efforts, however, complex customer inquiries could still result in no reduction to average handle time. This initiative therefore looks at additional ways to improve performance so that calls are resolved more efficiently. For instance, one way could be to hire more Spanish speaking representatives in our call centers to better assist customers who speak Spanish. Other areas may include simplifying the agents' desktop and enhancing coaching and training. The benefits reflect reduced vendor costs and enhanced productivity.

The initiative benefits all NY operating companies. The HTY reflects $0.525 million and $1.378 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.166 million for KEDLI and $0.500 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings from this initiative for KEDLI and KEDNY is $691 million and $1.878 million, respectively.

The Rate Year forecast costs to achieve these savings are $0.073million for KEDLI and $0.153 million for KEDNY.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)
Budget Type 1 OpEx savings:	166.9	500.0
Implementation Cost:	(73.0)	(153.3)
	93.9	346.7

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Zero Based Redesign (ZBR)	Project:	Eliminate Failure-driven Demand Contacts	Maturity Stage:	Deliver	Project Code: PRJ-1720

Business Area:	Customer	Operating Companies Affected:	KEDLI, KEDNY, NMPC

PROGRAM DESCRIPTION

This initiative is focused on trying to resolve customer calls the first time. Repeat calls drive up the Company's average handle time and decrease customer satisfaction. To that end, processes need to be enhanced to remove barriers so that customer first call resolution improves. The initiative will focus on resolving key drivers of vendor call transfers; mining customer speech to track customer intents; managing to call center representatives to first call resolution targets; and coordinating Front Office and Back Office Command Centers. The benefits reflect reduced vendor costs and enhanced productivity.

The initiative benefits all NY operating companies. The HTY reflects $0.023 million and $0.061 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.301 million for KEDLI and $0.820 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings from this initiative for KEDLI and KEDNY is $324 million and $0.881 million, respectively.

The Rate Year forecast costs to achieve these savings are $0.019 million for KEDLI and $0.041 million for KEDNY.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)
Budget Type 1 OpEx savings:	301.6	820.7
Implementation Cost:	(19.8)	(41.6)
	281.8	779.1

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Zero Based Redesign (ZBR)	Project:	Automated Manual Work	Maturity Stage:	Deliver	Project Code: PRJ-1721

Business Area:	Customer	Operating Companies Affected:	KEDLI, KEDNY, NMPC

PROGRAM DESCRIPTION

The Customer Digital team identified manual processes in the Back Office (e.g., Collections, AMO, Billing, Payment Processing) that, if automated, could potentially result in the efficiencies reflected in projected savings. In this way, the Company can better maintain affordability for customers.

The initiative benefits all NY operating companies. The HTY reflects $0.104 million and $0.263 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.571 million for KEDLI and $1.503 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings from this initiative for KEDLI and KEDNY is $0.675 million and $1.766 million, respectively.

The forecast costs to achieve these savings are $0.051 million for KEDLI and $0.107 million for KEDNY.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)
Budget Type 1 OpEx savings:	571.3	1,503.0

	520.2	1,395.7

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Zero Based Redesign (ZBR)	Project:	Optimize Back-Office Processes & Capacity	Maturity Stage:	Deliver	Project Code: PRJ-1722

Business Area:	Customer	Operating Companies Affected:	KEDNY, KEDLI, NMPC

PROGRAM DESCRIPTION

The initiative is to establish a workforce model similar to the Front Office to streamline work and better match headcount to operational forecasts. To do so, the Company will need to implement a new IT platform. Projected benefits include improvements to Back Office processes such as Leave on for Landlord, Bankruptcy, LTE, and Stopped Meters and enhanced productivity.

The initiative benefits all NY operating companies. The Rate Year forecast of savings is $0.176 million for KEDLI and $0.460 million for KEDNY (as shown below).

The Rate Year forecast costs to achieve these savings are $0.017 million for KEDLI and $0.036 million for KEDNY.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

Implementation Cost:	(17.6)	(36.9)
	158.7	424.0

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Customer Zero Based Redesign (ZBR)	Project:	Drive Paperless Adoption	Maturity Stage:	Deliver	Project Code: PRJ-1724

Business Area:	Customer	Operating Companies Affected:	KEDY, KEDLI, and NMPC

PROGRAM DESCRIPTION

This initiative reflects the paperless bill credit provided to customers who convert from paper to electronic billing. The credit is based on Historic Test Year costs and represents the difference in cost to produce a paper bill versus producing an electronic bill. Savings achieved by the Company (i.e., the cost of envelopes, paper, postage, and processing – less the cost to provide an electronic bill), would be returned to electronically billed customers in the form of a credit on each bill. For revenue requirement purposes, the program is cost and revenue neutral.

The HTY reflects $0.377 million and $0.612 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.104 million for KEDLI and $0.169 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings of $0.481 million and $0.781 million for KEDLI and KEDNY, respectively, is equal to the credit given to customers switching to an electronic bill under the tariffs.

The Rate Year forecast costs to achieve these savings are $0.033 million for KEDLI and $0.071 million for KEDNY.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)
Budget Type 1 OpEx savings:	104.3	169.3
Implementation Cost:	(33.9)	(71.1)
	70.4	98.2

Gas E2E

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	E2E Process - Gas	Project:	CISBOT Greater than 30"	Maturity Stage:	Deliver	Project Code: PRJ-1922

Business Area:	Gas	Operating Companies Affected:	KEDNY

PROGRAM DESCRIPTION

Cisbot is a robotic method to repair leaks that has been used on smaller diameter pipes (less than 30 inches) in KEDNY's service territory. This initiative seeks to extend the use of Cisbot to larger pipes of greater than 30 inches in diameter. The projected savings relate to a reduction in contractor costs from use of this methodology.

This is a KEDNY only initiative. The HTY reflects $0.028 million in savings, with additional savings of $0.140 million forecast in the Rate Year (as shown below). The total cumulative savings from this initiative is $0.168 million.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)
Budget Type 1 OpEx savings:		140.0
Implementation Cost:		
	-	140.0

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	E2E Process - Gas	Project:	To reduce T&M Expenses DNY	Maturity Stage:	Deliver	Project Code: PRJ-2317

Business Area:	Gas	Operating Companies Affected:	KEDNY

PROGRAM DESCRIPTION

This initiative involves a change in contract strategy for certain work. Currently, certain work is performed under an hourly contract rate referred to as "time and material work." The initiative seeks to update certain vendor contracts to eliminate "time and material" billing and move to unit pricing. The projected savings relate to a reduction in contractor costs.

The savings in the HTY of $1.184 million is more than what the Company forecasts for the Rate Year ($0.200 million). For revenue requirement purposes, the Company reflected the HTY amount and did not make a normalizing adjustment to lower those savings.

Gas Efficiency: Non-Complex

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	Uncontrolled Locks - Blended Crews	Maturity Stage:	Realize	Project Code: PRJ-1588

Business Area:	Gas	Operating Companies Affected:	KEDNY

PROGRAM DESCRIPTION

Certain work that requires access to the curb valve (e.g., collections, inactive accounts, new accounts, etc.) utilize Gas Field Operations ("GFO") resources such as trucks and two-man crews. With the primary duty of GFO's resources being to use a compressor to blow out debris to access the curb valve, there is an opportunity to shift resources to Customer Meter Services ("CMS") and decrease costs associated with curb valve blow-outs. This initiative involves a blended crew approach of GFO and CMS resources to minimize repeat visits, resulting in reduced costs, lower emissions, and enhanced customer satisfaction.

This is a KEDNY only initiative. The HTY reflects $0.264 million in savings, with additional savings of $0.028 million forecast in the Rate Year (as shown below). The total cumulative savings from this initiative is $0.292 million.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

Implementation Cost:		
	-	28.5

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	NYC Coring - Greenpoint, Canarsie, Staten Island	Maturity Stage:	Realize	Project Code: PRJ-1589

Business Area:	Gas	Operating Companies Affected:	KEDNY

PROGRAM DESCRIPTION

The initiative involves the use of less invasive coring technology to avoid the cost associated with restoring 3' x 3' openings for cathodic protection, valve repair, and service retirement jobs. The benefits include reduced labor and contractor efficiencies through use of this new technology.

This is a KEDNY only initiative. The HTY reflects $0.590 million in savings, with additional savings of $0.784 million forecast in the Rate Year (as shown below). The total cumulative savings from this initiative is $1.375 million.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

Implementation Cost:		
	-	784.7

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	AMR - Route Optimization - Long Island	Maturity Stage:	Realize	Project Code: PRJ-1662

Business Area:	Gas	Operating Companies Affected:	KEDLI

PROGRAM DESCRIPTION

This initiative looked at ways to make AMR routes more efficient through the use of a route optimization IT tool. The tool allowed teams to re-map AMR routes, resulting in productivity improvements as routes could be completed quicker and with less truck rolls – which also contributed to reduced emissions.

This is a KEDLI only initiative. The HTY reflects $0.851 million in savings, with additional savings of $0.026 million forecast in the Rate Year (as shown below). The total cumulative savings from this initiative is $0.878 million.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	Transparency to roadway depth (in house initiated gas work)	Maturity Stage:	Realize	Project Code: PRJ-1911
Business Area:	Gas	Operating Companies Affected:	KEDNY			

PROGRAM DESCRIPTION

This initiative involves better controls over the scope of in-house work. In this way, the Company avoids scope changes that result in less productivity. The benefits entail productivity improvements.

This is a KEDNY only initiative. The HTY reflects $1.078 million in savings, with additional savings of $0.121 million forecast in the Rate Year (as shown below). The total cumulative savings from this initiative is $1.200 million.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	Saw cutting in house	Maturity Stage:	Realize	Project Code:
Business Area:	Gas	Operating Companies Affected:				

PROGRAM DESCRIPTION

The initiative involved a review of saw cutting work. The Company compared costs between contracts and in-house crews and determined that in-house crews can saw cut roads more efficiently. The benefits include lower contractor spend by using more efficient in-house crews.

The savings in the HTY of $0.131 million is more than what the Company forecasts for the Rate Year ($0.130 million). For revenue requirement purposes, the Company reflected the HTY amount and did not make a normalizing adjustment to lower those savings.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	Contractor Savings Initiative (3/3) - Service line inspections - Lic Master Plumber AP	Maturity Stage:	Realize	Project Code: PRJ-1917

Business Area:	Gas	Operating Companies Affected:	KEDNY

PROGRAM DESCRIPTION

Currently, licensed master plumbers ("LMPs") perform certain inside service line inspections. The initiative seeks to determine if the LMPs could also perform outside inspections in the same area, thereby minimizing the number of trips the Company would have to undertake. Benefits would include reduced contractor costs/productivity.

This is a KEDNY only initiative. The HTY reflects $0.242 million in savings. Savings have been reflected in the forecast of Service Line Inspection costs in Other Initiatives Exhibit___(RRP-3), Schedule 42.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	Contractor Savings Initiative (2/3) - Opportunistic Inspections and Services Renewals	Maturity Stage:	Realize	Project Code: PRJ-1929 and PRJ-2276

Business Area:	Gas	Operating Companies Affected:	KEDNY, KEDLI, NMPC

PROGRAM DESCRIPTION

These two initiatives (PRJ-1929 and PRJ-2276) relate to the changes in the Service Line Inspection Program. The changes are discussed in the Gas Safety Panel's testimony. The modification to 16 NYCRR § 255.481 extended the time to complete atmospheric corrosion inspections from a three-year to a five-year cycle. The savings here (which are calculated off the FY2020 baseline) reflect the change in costs from the new cycle time and are embedded in the forecast, as reflected in Other Initiatives Exhibit___(RRP-3), Schedule 42, and discussed by the Gas Safety Panel.

Specifically, PRJ-1929 reflects forecast Rate Year savings of $0.146 million for KEDLI and $2.475 million for KEDNY. PRJ-2276 reflects Rate Year forecast savings of $2.013 million for KEDLI and $2.129 million for KEDNY.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	Early Payment Discounts	Maturity Stage:	Realize	Project Code: PRJ-1944

Business Area:	Gas	Operating Companies Affected:	KEDNY, KEDLI

PROGRAM DESCRIPTION

This initiative involved an IT improvement to Maximo that enabled the Company to obtain early payment discounts from certain vendors.

The HTY reflects $0.139 million in savings for KEDLI, with additional savings of $0.033 million forecast in the Rate Year (as shown below). The total cumulative savings from this initiative for KEDLI is $0.172 million. For KEDNY, the savings in the HTY of $0.315 million is more than what KEDNY forecasts for the Rate Year ($0.175 million). For revenue requirement purposes, KEDNY reflected the HTY amount and did not make a normalizing adjustment to lower those savings.

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Gas Efficiency: Non-Complex	Project:	Fleet optimization and reduction	Maturity Stage:	Realize	Project Code: PRJ-2279

Business Area:	Gas	Operating Companies Affected:	KEDNY

PROGRAM DESCRIPTION

The transportation group undertook an initiative to optimize the fleet to lower maintenance and fuel costs. The benefits reflect these efforts.

This is a KEDNY only initiative. The total cumulative savings from this initiative is $0.114 million. For revenue requirement purposes, as this amount was embedded in the HTY with no incremental savings forecast for the Rate Year, no separate adjustment was required for the Rate Year.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

Program Name:	Gas Efficiency: Non-Complex	Project:	Summons Late Fee Reductions - KEDNY	Maturity Stage:	Realize	Project Code: PRJ-5208

Business Area:	Gas	Operating Companies Affected:	KEDNY

PROGRAM DESCRIPTION

With the transition to more at-home work following the pandemic, the Company received summonses in the mail at various facility locations but did not have a centralized process in place. This initiative entailed working with NYC to enable the Company to pay summonses electronically, thereby helping to avoid late fees. The benefits are a reduction to late fees. This initiative is independent of project PRJ-1913 Summons Reduction, which focuses on the avoidance of the summons, not late fees.

This is a KEDNY only initiative. The HTY reflects $0.090 million in savings, with additional savings of $0.085 million forecast in the Rate Year (as shown below). The total cumulative savings from this initiative is $0.175 million.

GBE

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	GBE (Gas Business Enablement)	Project:	Summons Reductions	Maturity Stage:	Deliver	Project Code: PRJ-1913

Business Area:	Gas	Operating Companies Affected:	NMPC, KEDNY

PROGRAM DESCRIPTION

These four initiatives (PRJ-1930, PRJ-1931, PRJ-1913, and PRJ-1933) have been enabled through the GBE program. Specifically, they result from digital enhancements made possible by the common work, asset management, and scheduling systems delivered by the GBE program. The program allows the Company to better bundle together work thereby optimizing scheduling/dispatching, which in turn, results in lower labor costs, lesser truck rolls, and improved satisfaction. Lower truck rolls also contribute to reduced emissions. For example, before GBE, the Company may have sent a technician to a home to repair a device on the meter. Unknown at the time, however, because of the disparate systems, that customer could have been scheduled for a meter replacement six months later.

For PRJ-1913, the savings in the HTY of $1.742 million is more than what the Company forecasts for the Rate Year ($1.100 million). For revenue requirement purposes, the Company reflected the HTY amount and did not make a normalizing adjustment to lower those savings.

Supply Chain Optimization

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Supply Chain Optimization	Project:	Supply Chain Sourcing and Contract Management	Maturity Stage:	Realize	Various
Business Area:	Gas	Operating Companies Affected:	KEDNY, KEDLI, NMPC			

PROGRAM DESCRIPTION

Supply Chain Optimization is not an initiative per se. Rather, Supply Chain Optimization captures the summary results of Procurement's execution of sourcing and contract management activities completed in conjunction with the businesses. Specifically, included within the line item is multiple contract revisions/updates executed by Procurement that have resulted in one-time cost reductions over the term of the new or updated contract along with other strategic sourcing efforts to lower costs. Procurement manages a list of opportunities, tracks their progress, and reviews the outcomes. This underlying list informs an aggregate forecast and overall achieved savings that is ultimately reflected in the summary Supply Chain Optimization project. The list may include aspirational and/or immature opportunities which can be identified via the status/progress level assigned by Procurement.

The HTY reflects $5.975 million and $6.192 million in savings for KEDLI and KEDNY, respectively, with additional savings of $1.517 million for KEDLI and $2.282 million for KEDNY forecast in the Rate Year. The total cumulative savings from this initiative is $7.492 million and $8.451 million for KEDLI and KEDNY, respectively.

Program Name:	Plan Forward - Property	Project:	Res Woods Termination	Maturity Stage:	Deliver	Project Code: PRJ-2270

Business Area:	Ops Support	Operating Companies Affected:	KEDNY, KEDLI, NMPC

PROGRAM DESCRIPTION

This initiative reflects the termination of the Reservoir Woods lease and lower rent expense from moving to Data Drive. The forecast savings for the Rate Year of $1.598 million for KEDLI and $2.702 million for KEDNY is embedded in the rent expense forecast shown in Exhibit___(RRP-3), Schedule 8.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	Plan Forward-Property	Project:	Investment Recovery (Ops Support)	Maturity Stage:	Deliver	Project Code: PRJ-2271

Business Area:	Ops Support	Operating Companies Affected:	

PROGRAM DESCRIPTION

This initiative supports end-of-life asset management by maximizing the recovery value of a wide range of materials and items.

This is a KEDNY only initiative. The projected Rate Year savings are $0.100 million.

ASPIRATIONAL SAVINGS AND SAVINGS CLASSIFICATION	KEDLI ($1000s)	KEDNY ($1000s)
Budget Type 1 OpEx savings:	-	100.0
Implementation Cost:

NY Wide Efficiency

SUMMARY
Evolution - PROGRAM TRACKING

Program Name:	NY Wide Efficiency/Savings	Project:	NY US Layer Savings	Maturity Stage:	Realize	Project Code: PRJ-4430

Business Area:	Other	Operating Companies Affected:	NMPC, KEDLI, KEDNY

PROGRAM DESCRIPTION

This item is allocated between NY and NE and reflects the cost reductions associated with steps taken to implement our jurisdictional operating model (e.g., the elimination of the US President role and some other shared senior level roles).

The HTY reflects $0.283 million and $0.511 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.067 million for KEDLI and $0.121 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings for this initiative is $0.351 million for KEDLI and $0.632 million for KEDNY.

Program Name:	NY Wide Efficiency/Savings	Project:	NY Wide Efficiencies - Gas	Maturity Stage:	Realize	Project Code: PRJ-4607

Business Area:	Other	Operating Companies Affected:	NMPC, KEDLI, KEDNY

PROGRAM DESCRIPTION

This item reflects reduced employee expenses primarily due to reduction in travel due to home working during the pandemic and the shift to hybrid working now.

The HTY reflects $0.135 million and $0.655 million in savings for KEDLI and KEDNY respectively, with additional savings of $0.032 million for KEDLI and $0.156 million for KEDNY forecast in the Rate Year (as shown below). The total cumulative savings for this initiative is $0.168 million for KEDLI and $0.812 million for KEDNY.

MY22 Mach-E eAWD NG Estimate	33%	2.66	*usable battery capacity is 70kWh, 224 mi for eAWD, adjusted by -17% to reflect actual use/testing*
(b) Weighted Average Miles / kWh		2.01	

Elec Supply rate	$	0.119527	*estimated with Feb PSEG rates*
Elec dist rate	$	0.119584	*estimated with Feb PSEG rates*
(c) Electricity rate per kWh	$	0.239111	

(d) Proposed EV Count

Company	FY25	FY26	FY27	FY28
KEDNY	148	215	305	413
KEDLI	67	128	150	234
SERVCO [1]		36	36	36
Subtotal	215	379	491	683

Notes:
[1] Allocating based off code J127 - 20.59% KEDNY & 47.12% KEDLI Split

SCHEDULE 41
