**THE BROOKLYN UNION GAS COMPANY d/b/a NATIONAL GRID NY**

# Corrections and Updates Testimony

**of**

**The Rate Design Panel**

**Dated: June 30, 2023**

**Q. Please identify the members of the Rate Design Panel.**

A. The Rate Design Panel consists of Kellie I. Smith, Dawn M. Herrity, Melissa M. Barnes, and Howard S. Gorman. This is the same Panel that submitted direct testimony as part of KEDNY's April 28, 2023 filing. The terms defined in the Panel's direct testimony have the same meaning here.

**Q. What is the purpose of the Panel's corrections and updates testimony?**

A. The Panel provides corrections and updates to certain items in its direct testimony and certain exhibits. The Panel is updating its ECOSS, revenue allocation, rate design, and associated rates (including the MFC) based on corrections and updates to the Company's revenue requirement and other changes identified since the April 28, 2023 filing. The Panel also provides revised bill impacts based on the corrected and updated information. Further, the Panel is updating its revenue at current rates and commodity forecasts presented in its direct testimony.

**Q. Does the Panel sponsor any exhibits to its corrections and updates testimony?**

A. Yes. The Panel prepared the following exhibits:

- Exhibit __ (RDP-2CU) provides the Company's revenue forecast at current delivery rates, by service class, for the Rate Year and Data

Years, and sets forth the proposed changes to miscellaneous and other revenues;

- Exhibit __ (RDP-3CU) is the updated ECOSS for the Rate Year;
- Exhibit __ (RDP-4CU) presents the Company's proposed revenue allocation, rate design, and customer bill impacts for the Rate Year;
- Exhibit __ (RDP-6CU) sets forth the proposed MFC;
- Exhibit __ (RDP-7CU) sets forth the revenue per class targets for the Company's RDM;
- Exhibit __ (RDP-8CU) presents the Tariff Fees;
- Exhibit __ (RDP-9CU) presents the updated MCOSS and EJP rates;
- Exhibit __ (RDP-12CU) presents the updated ECOSS with Mains classified 100 percent demand;
- Exhibit __ (RDP-14CU) sets forth the Electric Generator revenue targets; and
- Exhibit __ (RDP-15CU) contains workpapers supporting various exhibits.

**Q. Please describe Exhibit __ (RDP-2CU).**

A. Exhibit __ (RDP-2CU) provides the Company's revenue at current rates for the Rate Year and Data Years. The Company is updating revenue at current rates, including the MFC and commodity revenue, to reflect the updated

sales forecast as explained in the Corrections and Updates Testimony of the Gas Load Forecasting Panel, as well as the updates to the forecast of commodity costs as explained in the Corrections and Updates Testimony of the Gas Supply Panel. The Company is also updating several miscellaneous revenue items to reflect updated inflation factors as described in the Corrections and Updates Testimony of the Revenue Requirements Panel.

The Panel is also correcting several items from the revenue forecast submitted in the original filing. First, the Panel is updating the pricing model to address the following corrections: (i) block one usage for service classifications 17-4A and 17-4 CNG, which inadvertently used three therms rather than the correct ten therms per customer; (ii) the MTA tax rate for service classification 22 Non-Firm Demand Response Tier 2 (rate code 134), which inadvertently used 0.0480 percent rather than the correct rate of 0.1050 percent; (iii) the Gross Revenue Tax ("GRT") rate for service classifications 21 Baseload Distributed Generation Sales and 22 Non-Firm Demand Response Tier 1 (rate codes 42 and 133, respectively), which inadvertently used 4.548 percent rather than the correct rate of 2.407 percent; and (iv) the GRT rate for service classification 22 Non-Firm Demand Response Tier 1 (rate code 435), which inadvertently used 2.407 percent rather than the correct rate of 4.548 percent.

The corrections of block one usage for the service classifications noted above were carried through to the Company's rate design.

Second, the Company is updating its revenue forecast for Newtown Creek to reflect the vendor commission paid on the sale of environmental attributes.

Third, the Company is updating its Electric Generator revenue forecast to include the annual bill requirement for one customer as opposed to using the customer's actual price out of revenues. The change increases the Electric Generator revenue forecast by $116,876.

Lastly, the Company is updating the Late Payment Charge calculation to include Electric Generator revenues as it was inadvertently excluded in the original calculation as filed.

**Q. Please describe Exhibit __ (RDP-3CU).**

A. Exhibit __ (RDP-3CU) provides the Company's ECOSS, which has been updated to reflect the updated sales and revenue forecasts and revenue requirement. Further, the Company changed the allocation of Demand Side Management and Energy Efficiency costs from Gas Deliveries Firm to Gas

Deliveries Total because Non-Firm Demand Response customers are eligible to participate in these programs. No other changes were made to the ECOSS.

**Q. Please describe Exhibit __ (RDP-4CU).**

A. Exhibit __ (RDP-4CU) provides the Company's revenue allocation schedules. The Panel updated these schedules to reflect the updated results of the ECOSS, including the sales and revenue forecasts and revenue requirements. To update the revenue allocation, the percentage increase in revenue assigned to each service classification in the Company's April 28, 2023 filing was increased by three percentage points (*e.g.*, classes in the Over category were changed from 27 percent increases to 30 percent increases), with one exception for SC 1B, which fell into the expanded Within tolerance band. The tolerance band for the Within category was widened to include service classifications between 0.60 times the average rate of return to 1.4 times the average rate of return in this Corrections and Updates filing, and the percentage increase in revenue for Within classes was increased by 2.82 percentage points. The revenue allocation is presented on Exhibit __ (RDP-4CU), Schedule 1.

The Company's updated rate design is presented on Exhibit __ (RDP-4CU), Schedule 3. The proposed Customer Charges for each service class remain the same as in the April 28, 2023 filing, except for SC21, where the Customer Charge was increased by 15 percent from current rates, rather than the 10 percent increase proposed in the initial filing, and the Demand Charge was increased by 27.5 percent, rather than the 25 percent increase proposed in the initial filing. The changes in slope (tail block compared to mid-block) for each rate class are the same as originally proposed. The changes in SC1B rates required the Incremental Low-Income discounts to be updated, which is presented on Exhibit___(RDP-4CU), Schedule 7. The proposed rates produce the revenue target for each class that is developed on Exhibit __ (RDP-4CU), Schedule 1. The proposed rates for the Non-Firm Demand Tier 1 are 54 percent lower than the SC2 and SC3 tail block rates; the proposed rates for Tier 2 are 63 percent lower than the SC2 and SC3 tail block rates. These discounts are slightly less than the 55 percent and 65 percent the Company had targeted but the Company intends to meet the original targets when the final revenue allocation and rate design are developed. A summary of the proposed rates is presented on Exhibit __ (RDP-4CU), Schedule 8.

The bill impacts resulting from the updated and corrected rates are presented on Exhibit __ (RDP-4CU), Schedule 4. These bill impacts reflect a reduction in supply rates from the Company's original filing due to the updated commodity forecast. The decrease in forecast supply rates will help to mitigate overall bill impacts for customers.

**Q. Please describe Exhibit__(RDP-6CU).**

A. Exhibit __ (RDP-6CU) provides the Company's calculation of the MFC at proposed rates. The schedules included in Exhibit __ (RDP-6CU) have been updated to reflect the updates to the Company's ECOSS, sales forecast, pre-tax weighted average cost of capital (pre-tax WACC), and commodity cost forecast.

**Q. Please describe Exhibit __ (RDP-7CU).**

A. Exhibit __ (RDP-7CU) provides the Company's calculation of RDM targets. The schedules included in Exhibit __ (RDP-7CU) have been updated to reflect the updates to revenue at proposed rates.

**Q. Please describe Exhibit __ (RDP-8CU).**

A. Exhibit __ (RDP-8CU), Schedule 2 provides the Company's calculation of the paperless billing credit. The Company has updated this schedule to

reflect the update to the inflation factor. The update to the inflation factor did not change the paperless billing credit as originally filed. Exhibit __ (RDP-8CU), Schedule 3 provides the Company's calculation of the Consolidated Billing Charge. The Company has updated this schedule to reflect the updates to the revenue requirement and the forecast number of bills.

**Q. Please describe Exhibit __ (RDP-9CU).**

A. Exhibit __ (RDP-9CU) presents the updated MCOSS, including updated Excelsior Jobs Program rates on Schedule 1A. Changes made in preparing the ECOSS (Exhibit __ (RDP-3CU)) were flowed through to this exhibit.

**Q. Please describe Exhibit __ (RDP-12CU).**

A. Exhibit __ (RDP-12CU) presents the updated ECOSS with Mains classified as 100 percent Demand. Changes made in preparing the ECOSS (Exhibit __ (RDP-3CU)) were flowed through to this exhibit.

**Q. Please describe Exhibit __ (RDP-14CU).**

A. Exhibit __ (RDP-14CU) provides the Company's Electric Generator revenue targets. The revenue targets have been updated to reflect the update to the Company's revenue forecast.

**Q. Please describe Exhibit __ (RDP-15CU).**

A. Exhibit__(RDP-15CU) provides the workpapers supporting the Panel's exhibits submitted herein.

**Q. Does this conclude your corrections and updates testimony?**

A. Yes, it does.

**Corrections and Updates Testimony of the Rate Design Panel**

## INDEX OF EXHIBITS

| | |
|---|---|
| Exhibit ___ (RDP-2CU) | Rate Year Gas Revenue Forecast |
| Exhibit ___ (RDP-3CU) | Embedded Cost of Service Study ("ECOSS") |
| Exhibit ___ (RDP-4CU) | Proposed Revenue Allocation, Rate Design and Customer Bill Impacts |
| Exhibit ___ (RDP-6CU) | Proposed Merchant Function Charges (“MFC”) |
| Exhibit ___ (RDP-7CU) | Proposed Revenue Decoupling Mechanism (“RDM”) |
| Exhibit ___ (RDP-8CU) | Tariff Fees |
| Exhibit ___ (RDP-9CU) | Marginal Cost of Service Study ("MCOSS") |
| Exhibit ___ (RDP-12CU) | Embedded Cost of Service Study ("ECOSS") (Mains 100% Demand) |
| Exhibit ___ (RDP-14CU) | Electric Generator Revenue Target |
| Exhibit ___ (RDP-15CU) | Supporting Workpapers for Exhibits |
