Before the Public Service Commission

THE BROOKLYN UNION GAS COMPANY d/b/a NATIONAL GRID NY and KEYSPAN GAS EAST CORPORATION d/b/a NATIONAL GRID

Third Supplemental Testimony

of

Theodore Poe, Jr.

Date: January 29, 2020

Q. Please state your name and business address.

A. My name is Theodore Poe, Jr. My business address is 40 Sylvan Road, Waltham, Massachusetts 02451.

Q. Are you the same Theodore Poe, Jr. who previously submitted testimony on behalf of KEDNY and KEDLI in these proceedings?

A. Yes. Previously-defined terms have the same meanings here.

Q. What is the purpose of your third supplemental testimony?

A. The purpose of my third supplemental testimony is to update the Companies' forecast of projected gas sales for the Rate Year and Data Years to reflect the impact of the January 16, 2020 Commission order in Case 18-M-0084 directing implementation of incremental utility energy efficiency and clean heating targets through 2025 (the "EE Order"). The updated forecast uses the forecast provided in my second supplemental testimony, filed on December 13, 2019, as a starting point and then incorporates the projected energy efficiency benefits that will result from the recently implemented targets from the EE Order.

Q. Does your third supplemental testimony include any exhibits?

A. Yes. My third supplemental testimony includes the following exhibits that were prepared or compiled under my direction and supervision:

Exhibit __ (TEP-2A-TS)	KEDNY Average Annual Calendar Year Use-Per-Customer Based on Total Residential Deliveries for the Historical Period 2013 – 2017 and the Forecast Period 2018 – 2024
Exhibit __ (TEP-2B-TS)	KEDLI Average Annual Calendar Year Use-Per-Customer Based on Total Residential Deliveries for the Historical Period 2013 – 2017 and the Forecast Period 2018 – 2024
Exhibit __ (TEP-4A-TS)	KEDNY Forecast Calendar Year Deliveries by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-4B-TS)	KEDLI Forecast Calendar Year Deliveries by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-14A-TS)	KEDNY Forecast Calendar Year Use Per Customer by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-14B-TS)	KEDLI Forecast Calendar Year Use Per Customer by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-15A-TS)	KEDNY Retail Forecast Spreadsheet, originally presented as Attachment 1 to DPS-068
Exhibit __ (TEP-15B-TS)	KEDLI Retail Forecast Spreadsheet, originally presented as Attachment 2 to DPS-068

Q. Please describe the changes to the Companies' gas sales forecasts.

A. My corrections and updates testimony and exhibits provided forecasts of the Companies' gas sales for the Rate Year and Data Years using data through February 2019. My second supplemental testimony and exhibits updated the Companies' sales forecast to reflect the operational plan adopted by the Companies in response to the Settlement between the Companies and DPS Staff in Case 19-G-0678, which provides for new customer connections through September 1, 2021.

The EE Order approved certain energy efficiency targets in an effort to reduce energy consumption and combat climate change. The EE Order directs utilities in New York State, including the Companies, to invest in energy efficiency and clean heat technologies from 2020 through 2025. Once implemented, these technologies are projected to provide reductions in energy usage, baseload, and peak demand in the Companies' service territories. As implementation of the energy efficiency and clean heat technologies will occur in the Rate Year and Data Years, the Companies are updating the forecast to incorporate the energy reductions these technologies are projected to provide. Further discussion on how the technologies from the EE Order will be implemented is provided in the supplemental testimony of the Future of Heat Panel.

For KEDNY, the updates to the gas sales forecast to reflect the incremental demand response and energy efficiency result in a decrease in the Rate Year from 1,689,187,510 therms to 1,687,554,812 therms compared to KEDNY's second supplemental sales forecast. For KEDLI, these updates result in a decrease in the Rate Year from

1,058,941,852 therms to 1,058,168,612 therms compared to KEDLI's second supplemental sales forecast. These decreases are attributable to the impact of the incremental energy efficiency technologies from the EE Order. The impacts of the decreased therms in the Companies' gas sales forecasts have been reflected in the third supplemental testimony of the Companies' Revenue Requirements Panels.

Q. Does this conclude your third supplemental testimony?

A. Yes.

Third Supplemental Direct Testimony of Theodore Poe, Jr.

INDEX OF EXHIBITS

Exhibit __ (TEP-2A-TS):	KEDNY Average Annual Calendar Year Use-Per-Customer Based on Total Residential Deliveries for the Historical Period 2013 – 2017 and the Forecast Period 2018 – 2024
Exhibit __ (TEP-2B-TS):	KEDLI Average Annual Calendar Year Use-Per-Customer Based on Total Residential Deliveries for the Historical Period 2013 – 2017 and the Forecast Period 2018 – 2024
Exhibit __ (TEP-4A-TS):	KEDNY Forecast Calendar Year Deliveries by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-4B-TS):	KEDLI Forecast Calendar Year Deliveries by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-14A-TS):	KEDNY Forecast Calendar Year Use Per Customer by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-14B-TS):	KEDLI Forecast Calendar Year Use Per Customer by Service and Revenue Class for the Period 2018 through 2024
Exhibit __ (TEP-15A-TS):	KEDNY Retail Forecast Spreadsheet, originally presented as Attachment 1 to DPS-068 (Excel file only due to size)
Exhibit __ (TEP-15B-TS):	KEDLI Retail Forecast Spreadsheet, originally presented as Attachment 2 to DPS-068 (Excel file only due to size)
