Before the Public Service Commission

THE BROOKLYN UNION GAS COMPANY d/b/a NATIONAL GRID NY

Second Supplemental Testimony

of

Revenue Requirements Panel

Date: December 13, 2019

Table of Contents

I. Introduction....1

II. Purpose of Testimony....1

III. Updates to the Revenue Requirement....2

IV. Conclusion....10

I. Introduction

Q. Please identify the members of the Revenue Requirements Panel.

A. The Panel consists of James M. Molloy, David B. Doxsee, and Stephanie A. Briggs.

Q. Is this the same Panel that previously submitted testimony on behalf of The Brooklyn Union Gas Company d/b/a National Grid NY ("KEDNY" or "Company") in this proceeding?

A. Yes. Previously-defined terms have the same meanings here.

II. Purpose of Testimony

Q. What is the purpose of the Panel's second supplemental testimony?

A. The purpose of the Panel's second supplemental testimony is to update KEDNY's revenue requirement to reflect the impacts of the recent settlement agreement between the Companies and DPS Staff in Case 19-G-0678 concerning the gas supply constraints in downstate New York and related moratorium on new customer connections (the "Settlement"). The revenue requirement also reflects an update to KEDNY's cost of service resulting from recently completed contract negotiations, as supported by the supplemental testimony of the Companies' GIOP.

Q. Does the Panel's second supplemental testimony include any exhibits?

A. Yes. The Panel's second supplemental testimony includes the following exhibits that were prepared by or compiled under our direction and supervision:

Exhibit __ (RRP-1SS)	Summary Revenue Requirement Pages for the Historic Test Year Ended December 31, 2018 and Rate Year Ending March 31, 2021 (Second Supplemental);
Exhibit __ (RRP-2SS)	Net Utility Plant and Depreciation Expense (Second Supplemental); and
Exhibit __ (RRP-3SS)	Revenue Forecast (Second Supplemental).

III. <u>Updates to the Revenue Requirement</u>

Q. Please provide a brief overview of how the downstate supply constraint affected the Company's revenue requirement to this point in the proceeding.

A. KEDNY's direct and corrections and updates testimony and exhibits were prepared under the assumption the NESE project would be in-service by the winter of 2020/2021, thereby allowing the Company to continue connecting new customers. To provide the Commission with a full and complete evidentiary record, KEDNY filed supplemental testimony on June 11, 2019, reflecting a revenue requirement assuming a no-NESE project scenario

where the Company would not be connecting new customers in the Rate Year and Data Years.

Staff, in its direct testimony, took the position that the revenue requirement should be adjusted to assume the unavailability of the NESE project. Accordingly, in rebuttal, the Company adjusted the revenue requirement to assume the NESE project would not be in service within the required timeframe. The adjustment resulted in a Rate Year revenue requirement of $190.491 million, as shown in Exhibit ___ (RRP-1R), Schedule 1.

Q. Please describe the Settlement and how it impacts the revenue requirement.

A. As discussed in the GIOP's supplemental testimony, on November 26, 2019, the Commission approved a settlement agreement between the Companies and DPS Staff in Case 19-G-0678 that established a framework for resolving all aspects of the Companies' moratorium on new gas connections. Under the terms of the Settlement, the Companies agreed to lift the moratorium for the next two winters (through September 1, 2021). To enable customer connections notwithstanding the supply constraints in the downstate service area, the Companies have developed an operational plan consisting of new and unprecedented interim supply solutions,

including the expanded use of portable compressed natural gas injections to maintain system pressure during peak conditions, as well as various demand-side and energy efficiency measures to reduce peak demand. The Settlement also provides a framework for developing longer-term solutions to address supply constraints.

To incorporate these changes, the Company is updating its capital and O&M forecasts, delivery revenues, and cost of gas. These updates are supported by the supplemental testimonies of the GIOP, Elizabeth D. Arangio, and Theodore Poe, Jr., and this Panel utilized information from these witnesses to update the revenue requirement.

Q. Does the revenue requirement reflect additional updates?

A. Yes. As mentioned, the GIOP's supplemental testimony supports an update to the cost of service from recent contract negotiations unrelated to the Settlement. The Panel reflected this update in the revenue requirement.

Q. What is the updated revenue requirement?

A. As shown in Exhibit ___ (RRP-1SS), Page 1, the updated Rate Year revenue requirement is $199.701 million, an increase of $9.210 million from the revenue requirement set forth in the Company's rebuttal filing.

Q. Please summarize the primary drivers for the change to the Rate Year revenue requirement.

A. As shown in Table 1 below, the primary drivers of the change to the revenue requirement are higher capital expenditures (*e.g.*, increases to the return on rate base and depreciation) and an increase to O&M expense. This is offset by increases in forecast delivery revenues and purchased gas costs, which result in a net increase in gross margin of $1.5 million.

Table 1 – Revenue Requirement Update

Drivers:			**($000's)**
Return on Rate Base (Net Utility Plant and flow through ADIT)			$ 2,934
O&M			7,198
Increase Revenue forecast	(31,403)		
Increase in Purchased Gas Costs	29,883		
Net Increase in Gross Margin	(1,520)		(1,520)
Depreciation Expense			383
Tax Surcredit, GRT and ETIP			(184)
Impact on GRT & Uncollectible			399
Revenue Requirement			$ 9,210

Q. Please describe Exhibit ___ (RRP-1SS).

A. Exhibit ___ (RRP-1SS), Page 1, presents the calculation of KEDNY's operating income for the Historic Test Year and Rate Year reflecting the impacts of the Settlement and the updated contractor costs.

Q. Please explain the changes to the revenue forecast.

A. The Company's rebuttal filing reflected a Rate Year revenue forecast at present rates of $1,772,928,621. To adjust for the impacts of the Settlement, the Company computed base delivery revenue, billing service fees, late payment charges, merchant function charge revenue, commodity revenue, and gross revenue taxes after accounting for the changes to the sales forecast, as supported by Company Witness Poe. The Company also computed the commodity cost forecast to reflect the changes discussed by Company Witness Arangio. In addition, the Company made corrections to its ETIP revenues to equal the estimated fiscal year ETIP budget, included merchant function charge revenue for transportation service classes previously omitted in the Company's rebuttal filing, and corrected a formula error that affected the ogive results. As shown in Exhibit ___ (RRP-3SS), Page 1, the updated revenue forecast at present rates is $1,804,200,289, an increase of $31,271,668 from the rebuttal filing, which,

after adjustment for associated incremental gas costs, results in an increase in gross margins of $1.520 million.

Please note that Exhibit ___ (RRP-3SS) includes a new line item labeled "SI Fill Station." The amount shown on this line represents rental income that will be received from KEDLI for the Staten Island CNG filling station, which is recorded as a capital investment on KEDNY's books, but will benefit both KEDNY and KEDLI. The rental income reflects 50 percent of the annual revenue requirement associated with the project in the Data Years (the calculation of which is shown in Exhibit ___ (RRP-2SS)).

Q. Please explain the updates to KEDNY's O&M expense forecast.

A. Exhibit ___ (RRP-1SS), Page 2, presents a summary of KEDNY's updated forecast of O&M expenses for the Rate Year. The net change to O&M expense is an increase of $7.198 million from the rebuttal filing, consisting of the following:

- Energy Efficiency (ETIP) – flow through adjustment of changes to the revenue forecast (as discussed above).
- Other Initiatives – With respect to the Settlement, the following three adjustments were made: (i) add back contractor inspectors for the Enhanced Contractor Inspection Program to the same levels that were submitted in the corrections and updates filing; (ii) include operating

expenses associated with the new portable LNG facility at Greenpoint; and (iii) include KEDNY's allocated portion of the O&M costs associated with the new CNG filling station to be located on Staten Island. In addition, the Company made an adjustment to update the O&M costs associated with the recently completed contract negotiations for damage prevention work, which is unrelated to the Settlement. These adjustments are discussed in the GIOP's supplemental testimony and presented in Exhibit ___ (GIOP-6SS).

- Uncollectible Accounts – flow-through adjustment of the changes to uncollectibles associated with the changes to revenue.

Q. Please explain the updates to depreciation expense.

A. A forecast of depreciation expense resulting from the changes to the capital work plan is presented in Exhibit ___ (RRP-1SS), Page 12. The revenue requirement reflects a slight increase in Rate Year depreciation expense from $159.225 million in the rebuttal filing to $159.608 million in this filing.

Q. Please explain the updates to KEDNY's forecast of taxes other than income taxes.

A. Exhibit ___ (RRP-1SS), Page 11, includes the summary of changes to taxes other than income taxes. In the Rate Year, there is no change in real estate taxes from the rebuttal filing because of the lag between the time when plant is placed in service and taxes are assessed. The changes occur in the Data Years.

Q. Please discuss the update to federal and state income taxes.

A. A forecast of federal and state income tax forecasts reflecting flow-through adjustments associated with the discrete adjustments described by this Panel is presented in Exhibit ___ (RRP-1SS), Page 3.

Q. Please explain the changes to rate base.

A. Exhibit ___ (RRP-1SS), Page 5, includes the rate base summary reflecting the changes referenced above, which are discussed in more detail in the GIOP's supplemental testimony. Exhibit ___ (RRP-2SS) is the forecast of KEDNY's net utility plant. The exhibit includes a summary of the impact on net utility plant and depreciation expense from the changes to the capital work plan supported by the GIOP. Additionally, Exhibit ___ (RRP-1SS), Page 5, sets forth the federal and state accumulated deferred income taxes

reflecting the impact from the net utility plant adjustments and the working capital O&M cash allowance reflecting the impacts of the O&M expense changes.

IV. Conclusion

Q. Does that conclude the Panel's second supplemental testimony?

A. Yes.

INDEX OF EXHIBITS

Exhibit __ (RRP-1SS): Summary Revenue Requirement Pages for the Historic Test Year Ended December 31, 2018 and Rate Year Ending March 31, 2021 (Second Supplemental)

Exhibit __ (RRP-2SS): Net Utility Plant and Depreciation Expense (Second Supplemental)

Exhibit __ (RRP-3SS): Revenue Forecast (Second Supplemental)

Exhibit_____(RRP-1SS)
