To:Bill Yates <wyates@utilityproject.org>

Hi William,

Thank you for your time! Yes, we can target consumers by census tract numbers.

Census_State_Country_Tract	Census State Country Tract (SSCCCTTTTTT)	11	Census Combined Code without Block.
Census_State_Code_2010	Census State Code 2010	2	Used to identify states, territories and possessions. Codes range from 01-Alabama to 78-Virgin Islands (not all inclusive). Note that there is not consistency in state code assignment across files.
County_Code	County Code	3	Used together with state code to identify counties, parishes, independent cities, (or boroughs and census areas in Alaska) within the United States.

Let me know the demographics you are looking to target and I can run counts on my end and get pricing over to you!
