KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

For each calendar year from 2020 through 2022, and for the most recent twelve-month period ended, please provide the number of EAP heating customers whose aggregate total bills (net of EAP discounts) were less than $0. Please also state the dollar amount by which these aggregate bills were less than $0.

Response:

For each calendar year from 2020 through 2022 the tables below represent the number of customers and the aggregate bills (net of EAP discounts) that were less than $0. The aggregate bills represent supply and delivery charges (net of EAP discounts), which resulted in a negative amount charged to these customers over the course of the calendar year.

KEDLI EAP Heating		
CY	Customers	$ Amount
2020	817	-$105,979
2021	799	-$85,473
2022	1,074	-$180,134

KEDNY EAP Heating		
CY	Customers	$ Amount
2020	4,106	-$511,617
2021	3,151	-$434,512
2022	3,191	-$431,735

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

(For Question 2, responses are requested either as of each of the following dates or during each of the following quarters, as specified: **September 30, 2021; December 31, 2021; March 31, 2022; June 30, 2022; September 30, 2022; December 31, 2022; March 31, 2023,** and; the most recent three-month period ended.)

Please provide:

a. The number of residential customers who self-certified their eligibility for EAP during the quarter, and the associated arrears owed by such customers at the time they were enrolled.

b. The number of residential customers enrolled in EAP by Collection Residential Account Management Group (CRAM) representatives during the quarter, and the associated arrears owed by such customers at the time they were enrolled.

c. The number of residential customers enrolled in EAP by Consumer Advocates during the quarter, and the associated arrears owed by such customers at the time they were enrolled.

d. The number of residential customers enrolled in EAP by representatives other than CRAM representatives and Consumer Advocates during the quarter, and the associated arrears owed by such customers at the time they were enrolled.

e. The number of Non-Heating Non-EAP customers (SC 1A) in arrears at quarter-end, and the associated arrears owed by such customers.

f. The number of Heating Non-EAP customers (SC 1 B) in arrears at quarter-end, and the associated arrears owed by such customers.

g. The number of Non-Heating EAP customers (SC 1AR) in arrears at quarter-end, and the associated arrears owed by such customers.

h. The number of Heating EAP customers (SC 1 BR) in arrears at quarter-end, and the associated arrears owed by such customers.

Response:

a. The tables below include the number of customers enrolled in EAP through self-certification during the specified time frames. The Companies do not track or report on point-in-time arrears balances for EAP self-certification customers.

KEDLI EAP Self-certification							
	Q3 2021	Q4 2021	Q1 2022	Q2 2022	Q3 2022	Q4 2022	Q1 2023
Customers	391	506	1,116	532	613	960	1,036

KEDNY EAP Self-certification							
	Q3 2021	Q4 2021	Q1 2022	Q2 2022	Q3 2022	Q4 2022	Q1 2023
Customers	117	150	394	672	2,094	1,757	2,225

b. Collection Residential Account Management Group ("CRAM") representatives do not enroll residential customers in EAP.

c. Consumer Advocates do not enroll residential customers in EAP. The process for enrolling customers in EAP is described in the Companies' response to question D, below. The Consumer Advocates promote, educate, and recommend the program to those customers believed/determined to be eligible. Customers that are eligible to self-enroll must provide documentation of participation in a qualifying program, and they are typically not prepared to provide that documentation when initially speaking to an advocate. If the customer has that information, the Consumer Advocate will walk the customer through the application process using the self-serve application portal on the Company's website (ngrid.com/eap). The Consumer Advocates explain EAP, the enrollment process, provide the web address (ngrid.com/eap) that contains the self-serve application portal and the capability to download an application. Additionally, the advocates can provide EAP factsheets and will provide a printed EAP application which contains the mailing address to return the completed application with required documentation.

d. The Energy Affordability Team representatives process the self-certification EAP enrollment applications. The self-certification EAP enrollment data is included in the response to question A, above.

The Companies' DSS/HRA Processing Team, who are responsible for processing the New York State Department of Social Services ("DSS") and the New York City Human Resources Administration ("HRA") utility assistance programs, enroll customers in EAP.

Additionally, the DSS/HRA Processing Teams enroll residential customers in EAP when the

utility assistance program eligibility meets the EAP program eligibility qualifications. KEDNY's HRA Processing Team handles the customer accounts going on and off of the HRA utility assistance programs in the CRIS customer system. The process to set up the account on assistance requires the representative to manually place the account on EAP. The team also sets up the post assistance account and ensures continuation of EAP.

KEDLI's DSS Processing Team handles the customer accounts going on and off of DSS utility assistance in the CSS customer system. The process to set up the account on assistance includes system automation that places the account on EAP. The team also sets up the post-assistance account and ensures continuation of EAP. The Company does not include data below for KEDLI because customers are automatically enrolled in EAP when they are placed on assistance. Likewise, when a KEDLI customer account transitions to a new account post assistance, their EAP is continued, not newly enrolled.

DSS/HRA EAP (KEDNY)							
	Q3 2021	Q4 2021	Q1 2022	Q2 2022	Q3 2022	Q4 2022	Q1 2023
Customers	67	81	73	442	313	209	266

e. The Companies do not track or report on Non-Heating Non-EAP customers (SC 1A) in arrears and their associated point-in-time arrears balances at quarter-end.

f. The Companies do not track or report on Heating Non-EAP customers (SC 1 B) in arrears and their associated point-in-time arrears balances at quarter-end.

g. The Companies do not track or report on Non-Heating EAP customers (SC 1AR) in arrears and their associated point-in-time arrears balances at quarter-end.

h. The Companies do not track or report on Heating EAP customers (SC 1 BR) in arrears and their associated point-in-time arrears balances at quarter-end.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

The Customer Service Panel Testimony, at 30, states that the addition of three Consumer Advocates by KEDNY would enable outreach to an additional 7,200 to 9,000 households and support approximately 108 community outreach events in KEDNY's service territory; while the addition of two full-time Consumer Advocates in KEDLI's service territory would enable outreach and assistance to an additional 4,800 to 6,000 households and support approximately 72 community outreach events annually.

1. What percentage of each proposed full-time equivalent ("FTE") Consumer Advocate position is anticipated to be dedicated to outreach to households?

2. Exhibit ___(CP-1), Schedule 3 at 3 includes a table forecasting one FTE with total annual labor and overhead costs of about $120,000 - $125,000 each for KEDNY and KEDLI for the Consumer Advocate program. However, the Companies state that 5 full-time advocates are proposed to be hired. Please clarify the proposed costs per FTE and the proposed total costs for KEDNY and KEDLI.

Response:

1. The Company anticipates that each proposed FTE will dedicate 50 percent of their time to outreach to households and 50 percent to community outreach and educational events.

2. The Company is proposing to add five full-time Consumer Advocates (three FTEs at KEDNY and 2 FTEs at KEDLI) as discussed in the Customer Service Panel's testimony. The Company discovered that it inadvertently did not include the costs of two FTEs at KEDNY and 1 FTE at KEDLI. The Company will reflect these costs and update the table in Exhibit___(CP-1), Schedule 3 as well as Exhibit___(RRP-3), Schedule 41 in Corrections and Updates.

The proposed cost per FTE as stated is $120,000 - $125,000, bringing the total annual cost for KEDNY (3 FTEs) to $360,000 - $375,000 and the total annual cost for KEDLI (2 FTEs) to $240,000 - $250,000.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

For each calendar year from 2018 to 2022, and for the most recent twelve-month period ended, please provide the average monthly number of accounts coded as:

A. Elderly, Blind, or Disabled
B. Medical Emergency
C. Life Sustaining Equipment

Response:

KEDNY	Elderly	Blind	Disabled	Medical Emergency	Life Sustaining Equipment
2018	4,647	201	2,796		3
2019	4,553	193	2,662		2
2020	4,312	184	2,540		2
2021	4,078	173	2,420		2
2022	3,871	164	2,291		2
Avg. Most Recent 12 Months	3,814	161	2,240	2	2

The CRIS billing system does not contain historical data for medical emergency designations, which are typically of a short-term duration. Therefore, only the average for the most recent twelve-month period is provided in the response for KEDNY.

There may be overlap in the Elderly, Blind & Disabled numbers, meaning a customer may be in more than one category.

KEDLI	Elderly	Blind	Disabled	Medical Emergency	Life Sustaining Equipment
2018				9	
2019				8	
2020				8	
2021				20	
2022				7	
Current Count	1702	1535	1561	7[1]	5

The CSS billing system does not contain historical data for Elderly/Blind/Disabled and life support. Therefore, only the current count was provided in the response for KEDLI.

There may be overlap in the Elderly, Blind & Disabled numbers, meaning a customer may be in more than one category.

KEDLI	Elderly	Blind	Disabled	Medical Emergency	Life Sustaining Equipment
2018				9	
2019				8	
2020				8	
2021				20	
2022				7	
Current Count	1702	1535	1561	7[2]	5

The CSS billing system does not contain historical data for Elderly/Blind/Disabled and life support. Therefore, only the current count was provided in the response for KEDLI.

There may be overlap in the Elderly, Blind & Disabled numbers, meaning a customer may be in more than one category.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please provide the number of residential customers who are enrolled in the Companies' Unified Web Portal.

Response:

The table below summarizes the number of residential customers enrolled in the Companies' Unified Web Portal for NYC and LI.

A "Profile" in the table below designates a single Web Portal profile established by a customer with a single username and password. An "Account" in the table below designates a single customer account in the Company's billing system. Customers can view multiple "Accounts" under a Web Portal Profile to view and pay bills, which is why the number of Accounts is higher than the number of Profiles.

Region	Profiles	Accounts
LI	317,456	330,625
NYC	365,327	551,593

KEDNY KEDLI Case No. 23-G-0225 & 23-G-0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: HEFPA-compliant Deferred Payment Agreements

Request:

Unless otherwise specified, please provide responses separately for both KEDNY and KEDLI. Additionally, all references to "customers" are for residential customers only.

Please provide an explanation of any changes that have been made to policies and procedures involving the issuance of HEFPA-compliant Deferred Payment Agreements ("DPAs") for both EAP and Non-EAP customers since January 1 2019.

Response:

Since January 1, 2019, the most significant process change for HEFPA-compliant DPAs (*i.e.*, Standard DPAs and Minimum DPAs) was the addition of a “verbal consent” option for both KEDNY and KEDLI customers. This option allows customers to verbally consent to their DPA terms over the phone to activate their payment arrangement. With verbal consent, active status customers can immediately activate their DPA; likewise, “Cut Out Non-Pay” status customers can activate their DPA and have a reconnect order issued at the time of verbal consent (provided the customer can pay their down payment over the phone). The customer will still receive the DPA terms via email (as well as regular mail when the DPA is activated). Verbal consent is typically only used for the Negotiated DPA (15% down and 10 installments) as Minimum DPAs require the customer to complete a financial statement to determine eligibility. If a financial statement is waived based on the customer receiving E-HEAP, verbal consent may be used when the Customer Service Representative is adding the Minimum DPA to the account. This process change enhances the customer experience and reduces the need for follow up from the customer prior to activating DPA. A verbally consented DPA is treated the exact same way as a DPA that is signed, during the life of the payment plan, and subsequently if the customer defaults. Verbal consent started at KEDNY in October 2022 and KEDLI in February 2023.

The Companies have also periodically updated their DPA procedures and guidelines to reflect minor clarifying language and updates to menu navigation specific to each jurisdiction.

During the COVID pandemic, the Companies also made short-term modifications to their DPA statements of procedures. Please see Attachments 1 and 2 to PULP-011 for copies of the Companies' most recent statement of procedures for DPAs.

SUBJECT: Matching

Request:

Unless otherwise specified, please provide responses separately for both KEDNY and KEDLI. Additionally, all references to "customers" are for residential customers only.

Please provide all summary reports pertaining to the results of EAP file matching with either HRA and/or OTDA since January 1, 2019. Such reports should summarize the number of customers successfully matched, identifying matches of both existing EAP participants and customers not currently enrolled. Unmatched customers should be further summarized by the reason matching was not successful (e.g., customer account provided in the file was not in Companies' service territories, etc.).

Response:

Please refer to the table below for the Summary and Error reports available since January 1, 2019 for file matches with Human Resources Administration (“HRA”), Human and Health Services (“HHS”), and Office of Temporary and Disability Assistance (“OTDA”). Attachment 1 lists the reporting codes and decodes describing reasons for unsuccessful matching. The Companies are committed to working in the EAP Working Group with stakeholders on improving file matching. In the absence of a protective order in these proceedings and because it would be unduly burdensome to redact confidential customer identifying information from hundreds of pages of attachments, the Companies are providing on abbreviated summary of the reports with customer information redacted. The Companies will work with PULP to provide additional information as needed, while ensuring the protection of confidential customer information.

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

For the most recent twelve-month period ended, please provide the following information, in .xslx format, relating to each DPA issued by each company through the CRAM Group:

A. The total arrears owed under the account ($);

B. The down payment agreed to under the DPA ($);

C. The monthly payment agreed to under the DPA ($);

D. Whether or not a financial statement as required under HEFPA was taken (Y/N);

E. Whether or not this is the first DPA entered into under the account (Y/N); and

F. Whether or not the account is current on its payment under the DPA (Y/N).

Response:

Please refer to Attachment 1 for KEDLI DPA information. Since CRAM was not used to support KEDNY, there are no accounts that had DPAs established by the CRAM group.

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please describe the criteria each company uses to define "residential customer".

Response:

Residential customers are defined under KEDNY and KEDLI's respective gas tariffs as those customers served under the service classifications identified below.

KEDNY:

A KEDNY residential non-heating customer is defined as a customer under Service Classification 1A, who uses gas for domestic purposes other than space heating by a single resident residing in a one-family or two-family dwelling where the usage is metered separately. Also, for use of gas for space heating for any corporation associated with religious affiliation or a not-for-profit veterans' organization. Any community residence as defined in Subdivisions 28, 28a or 28b of Section 1.03 of the New York State Mental Hygiene. For more detail, please see the KEDNY's PSC 12 -- Tariff, Leaf 139.

A KEDNY residential heating customer is defined as a customer under Service Classification 1B, who uses gas service to supply the principal residential space heating. This includes single residents residing in a one-family or two-family dwelling where the usage is metered separately. Also, for use of gas for space heating for any corporation associated with religious affiliation or a not-for-profit veterans' organization. Any community residence as defined in Subdivisions 28, 28a or 28b of Section 1.03 of the New York State Mental Hygiene. For more detail, please see KEDNY's PSC 12 -- Tariff, Leaf 143.

KEDLI:

A KEDLI residential customer is defined as a customer under Service Classification 1, in a single-family home or dwelling or a multiple dwelling where the gas usage is metered separately. Also, for use of gas for space heating for any corporation associated with religious affiliation or a not-for-profit veterans' organization. Any community residence as defined in

Subdivisions 28, 28a or 28b of Section 1.03 of the New York State Mental Hygiene. For more detail, please see KEDLI's PSC 1 – Tariff, Leaves 66.1 to 67 and 120 to 122.3.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

For KEDNY only, please provide a listing of all Queens census tracts in which the Company provides service.

Response:

Please refer to Attachment 1 for a listing of all Queens census tracts in which KEDNY provides service. A combination of public census tract data and the most up to date KEDNY service territory files were used to create the list of census tracts in an Excel file that are both in KEDNY's service territory and Queens County.

Data for counties were sourced from NY GIS Clearinghouse and last updated March 16, 2023. Data for census tracts were sourced from Data.Gov and were defined by 2010 US Census Participant Statistical Areas Program.

Please note that KEDNY's service territory boundaries do not perfectly align with census tract boundaries and therefore some census tracts included in the list are only partially located within KEDNY's boundaries. Census tracts with less than 0.000005 square mile area were removed in the provided Excel file as they were mostly due to border overlaps.

Request:

Please provide all available examples of service territory maps that include geographic demarcations such as census tracts, townships, community districts and county/boroughs; together with general maps without such demarcations.

Response:

Please see the following attachments containing maps of the Companies' service territories:

- Attachment 1 provides a map of KEDNY's service territory with geographic demarcations.
- Attachment 2 provides a map of KEDLI's service territory with geographic demarcations.
- Attachment 3 provides a map of KEDNY's service territory without geographic demarcations.
- Attachment 4 provides a map of KEDLI's service territory without geographic demarcations.

County demarcation lines along with census tracts have been overlaid on the service territories in Attachments 1 and 2 and the base maps identify numerous city and town locations. Data for counties were sourced from NY GIS Clearinghouse and last updated March 16, 2023.

Attachments 5 and 6 provide a listing of census tracts within the KEDNY and KEDLI service territories, respectively. A combination of public census tract data and the most up to date service territory maps were used to create the list of census tracts in the Excel files. Data for census tracts was sourced from Data.Gov and defined by the 2010 US Census Participant Statistical Areas Program. Please note that the Companies' service territory boundaries do not perfectly align with census tract boundaries and therefore some census tracts included in the list

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please provide the number of customers who had regular HEAP grants applied to their accounts for each calendar year from 2018 through 2022.

Response:

Please refer to the table below for the number of KEDNY and KEDLI customers who had regular HEAP grants applied to their accounts for each calendar year from 2018 through 2022.

Heap Year	KEDNY # of Grants Received.	KEDLI # of Grants Received.
2018	22,155	8,989
2019	9,487*	8,699
2020	29,669	9,781
2021	11,833*	10,355
2022	37,766	9,168

* The fluctuation in KEDNY grants is related to timing of when grants are received. The majority of grants are either received in December or January. For the 2019-2020 and the 2021-2022 heating seasons, a large volume of grants were received in January 2020 and January 2022, respectively.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please describe how KEDNY identifies heating customers versus non-heating customers for purposes of placement in its EAP.

Response:

KEDNY identifies heating versus non-heating customers for purposes of placement in its EAP based on the customer's residential heating or non-heating delivery rate. When the customer is enrolled in EAP, the service classification is updated to residential heating EAP ("1BR") or residential non-heating EAP ("1AR") to reflect the EAP service classification.

This information is reflected in the Company's Statement of Energy Affordability Credit ("EAC") tariff filing issued November 1, 2022, and effective December 1, 2022, in Case 14-M-0565, Proceeding *on Motion of the Commission to Examine Programs to Address Energy Affordability for Low Income Utility Customers*, Order Adopting Energy Affordability Policy Modifications and Directing Utility Filings (issued and effective August 12, 2021).

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Is KEDNY able to identify through its matching procedures with HRA whether or not a matched customer received a regular HEAP grant? If so, please explain how the matching process enables such identification. If not, please state why not.

Response:

KEDNY is not able to identify through its matching procedures with HRA whether or not a matched customer received a regular HEAP grant. Through the file matching process with HRA, the Company provides a list of its residential customers and HRA returns two lists: an enrollment file that contains a “Y” for the customers who should be enrolled in the Energy Affordability Program based on receipt of certain public assistance programs and a de-enrollment file that contains an “N” for customers that are no longer eligible for the Energy Affordability Program and therefore should be de-enrolled. The enrollment file does not indicate which type of assistance the customer receives, it only contains a “Y” indicating that they should be enrolled.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please provide documentation supporting the Customer Service Panel's statement, at 11-12, that: Based on National Grid's calculations using demographic data matched against the Companies' residential customer data, and applying the New York State Energy Research and Development Authority's ("NYSERDA") guidelines National Grid determined that 32 percent of the Companies' New York City residential customers and 17 percent of the Companies' Long Island residential customers qualify as low-income with annual incomes less than 60 percent of the state median income. When adding moderate-income customers, those at 60 to 80 percent of the area median income for New York City and Long Island, the percentage of low- and moderate-income ("LMI") residential customers in the Companies' service territories rises to nearly 47 percent in New York City and 29 percent on Long Island.

In your response, please include all workpapers supporting your determination that 32% of NYC and 17% of Long Island residential customers qualify as low income and that 47% and 29% qualify as LMI.

Response:

Please see Attachment 1, which shows the results of an analysis by each Company and county as of February 2023 when the Companies matched residential customer information with externally purchased data relating to presumed income level and household size.

The match to the Companies' customers was made based on an address match to the premise address of the customer, plus a match to the last name if the premise was designated as more than a single-family structure. The following groupings were then reviewed to understand how to better assist customers who may qualify for income-eligible programs:

- "Low Income Rate Actual" represents customers who are currently enrolled in the Energy Affordability Program;

- "Low Income Rate Potential" represents customers who matched the income level and household size information and would meet Home Energy Assistance Program ("HEAP") qualifying guidelines for the 2022-2023 HEAP season;

- "Moderate Income Potential" represents customers who matched the income level and household size information and whose income and household size fell within New York State Energy Research and Development Authority's ("NYSERDA") 2022 income guidelines for their former Assisted Home Performance with Energy Star program, a moderate-income energy efficiency program that generally used 61% to 80% of state or area median income, whichever is higher.

- "Above Moderate Potential" represents customers who matched the income level and household size information and whose income and household size were above the previously mentioned income range; and

- "Not Matched & Not Low-Income Rate" represents customers who are not enrolled in EAP and who did not match to the externally purchased data.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

KEDNY Exhibit ___(RRP-10), Schedule 8, at 1, shows Maintenance of Services (Account 892) amounts of $120,316,912 for 2018 and $140,063,948 for 2019. These amounts are approximately 100% and 133% higher than the $61,871,019 reported for 2017, respectively. They are also 50-100% higher than 2020 - 2021 reported amounts.

Question/Information Requested:

A. What are the major reasons for the sharp percentage increases in Maintenance of Services account amounts for 2018 and 2019?

B. Please provide a breakdown of the components of Maintenance of Services amounts from 2017 through 2021, including supporting workpapers.

Response:

A. There are two major reasons for the increases in this account. First, pursuant to New York City Local Law 30, all gas services within New York City must have an external shutoff device (valve) installed to allow first responders to secure the flow of gas during emergency events. Costs to install these valves are captured within FERC Account 892. The Local Law 30 program saw significant activity in 2018 and 2019, as the Company installed valves at the remaining customer premises. Second, the Company implemented the Inside Service Line Program in response to the Commission's April 2017 "Order Establishing Statewide Inspection Schedules and Procedural Requirements." By January 2020, the Company had completed approximately 90 percent of the baseline inspections and leak surveys associated with that program. Inside Service Line program costs are also captured within FERC Account 892.

B. The breakdown of 2017 through 2021 components of Maintenance of Services account amounts can be found in Attachment 1.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Unless otherwise specified, please provide responses separately for both KEDNY and KEDLI. Additionally, all references to "customers" are for residential customers only.

Please provide any reports that indicate the number of customers who participated in the Companies' EAP programs in 2017.

Response:

The Companies' EAP programs began January 1, 2018, based on the Implementation Plans filed September 16, 2016, pursuant to the Commission's May 20, 2016, *Order Adopting Low Income Program Modifications and Directing Utility Filings* and subsequent *Order Approving Implementation Plans with Modifications* (Issued and Effective February 17, 2017) in Case 14-M-0565.

In 2017, KEDNY and KEDLI operated their former low-income rate discount programs. Attachments 1 and 2 are the 2017 low-income rate discount annual reports filed January 30, 2018, in Cases 16-G-0058 and 16-G-0059 indicating the number of customers who participated in the program.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please provide an historical analysis from 2009 through 2022 showing the annual interest (carrying cost) associated with Deferred Environmental Costs as reported on Page 232 of KEDNY annual reports to the Public Service Commission.

Response:

Pursuant to the 2016 Joint Proposal in Cases 16-G-0058/0059, a portion of historic Deferred Environmental Costs, including associated carrying costs for the period 2009-2016, were included in base rates ($18.521 million for KEDNY and $14.168 million for KEDLI). For the period 2017-2022 carrying charges associated with the Deferred Environmental Costs, as reported on page 232 of KEDNY and KEDLI's annual reports, are as follows.

Calendar Year	KEDNY balance subject to Carrying Costs (December)	KEDNY Annual Carrying Costs	KEDLI balance subject to Carrying Costs (December)	KEDLI Annual Carrying Costs
2017	182,662,859	10,544,320	102,250,497	6,168,316
2018	84,631,223	7,072,620	49,983,972	4,378,535
2019	65,649,219	5,488,267	12,625,247	1,775,476
2020	105,888,854	7,059,757	4,186,386	639,420
2021	103,535,250	8,169,496	(5,515,351)	(78,733)
2022	49,263,141	4,905,779	(17,908,565)	(930,528)
Total – CY2017-2019		**43,240,238**		**11,952,487**

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

For the Rate Year and each of the Data Years, please provide, based on Exhibit (RDP-4CU) Schedule 4 at 5, the projected number of EAP heating customers whose aggregate annual total bills (net of EAP discounts) would be less than $0. Please also state the dollar amount by which these aggregate bills would less than $0. In your response, please break down the number of participants by heating versus non-heating customers.

Response:

Please see Attachment 1 for KEDNY and Attachment 2 for KEDLI for the projected number of EAP heating customers whose aggregate annual total bills (net of EAP discounts) would be less than zero in the Rate Year. This information is not available for the Data Years because the Companies filed rate design for the Rate Year only. The attachments include only heating customers as there are no non-heating customers whose aggregate annual total bills are less than zero due to the fact that the non-heating credit is less than the minimum charge.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please state the number of EAP participants who were heating versus non-heating customers in your response to I/R PULP-01.

Response:

Information Request PULP-01 requested the number of heating customers whose aggregate total bills (net of EAP discounts) were less than zero. Therefore, the Companies response only reflected the data for heating customers.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

In follow-up to I/R PULP-02a, please provide:

a. The number of residential customers who self-certified their eligibility for EAP each calendar quarter (March, June, September, December) from 2019 through June, 2021.

b. The number of residential customers who self-certified their eligibility for EAP for the quarter ended June, 2023.

Response:

Prior to 2023, the Companies queried the Customer Related Information System ("CRIS") for KEDNY and the Customer Service System ("CSS") for KEDLI to determine the approximate number of residential customers who self-certified for the time frames requested. The results of those queries are shown in the tables below – the 2019 KEDLI data is provided on a calendar year basis to align with a prior data query regarding self-certification. For both Companies the queries may result in some degree of variability due to system configuration, process variation, and challenges with querying historical data. In January 2023, the Companies implemented a more detailed tracking method for EAP customer self-certification to address the data query variability.

a.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

The Companies' Customer Panel Testimony states, at 14, that the Companies "began an internal project in 2022 to identify and map Disadvantaged Communities within the operating companies' service territories."

Request: Please provide any results from this project including but not limited to reports, maps and workpapers.

Response:

The Companies are committed to serving Disadvantaged Communities within their territories. To date, the Companies have developed the capability to overlay the Companies' service territory with census tracts using Geographic Information System ("GIS") mapping. For a listing of census tracts within the Companies' service territories, please see the Companies' response to Information Request PULP-024. The Companies are also in the process of creating a map of the Disadvantaged Communities within the KEDNY and KEDLI service territories for use by the Companies' energy efficiency programs. The map is currently undergoing revisions to ensure accuracy and, therefore, is not provided with this response. No specific reports or workpapers have been prepared at this time.

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

For each calendar quarter from March, 2019 through June, 2023, please provide the following for both EAP and Non-EAP customers:

a. The number of customers who were enrolled in a HEFPA-compliant DPA within three months after having a regular HEAP grant applied to their account.

b. For KEDNY, the number of customers who were not enrolled in a HEFPA- compliant DPA, within three months after having a regular HEAP grant applied to their account, had not defaulted on a prior HEFPA-compliant DPA, but were provided with:

   1. Initial extensions.

   2. Updated extensions.

c. For KEDLI, the number of customers who were not enrolled in a HEFPA- compliant DPA within three months after having a regular HEAP grant applied to their account, had not defaulted on a prior HEFPA-compliant DPA, but were enrolled in a collection arrangement.

Response:

a. The data requested is not tracked and would be unduly burdensome to prepare potentially involving a review of approximately 100,000 accounts over the 2019-2023 period.

b. The data requested is not tracked and would be unduly burdensome to prepare.

c. The data requested is not tracked and would be unduly burdensome to prepare.

KEDNY KEDLI Case 23-G-0225\0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please explain why the number of KEDNY accounts coded for protection of elderly, blind and disabled under HEFPA all declined from 2018 through the most recent twelve- month period, as shown in the Companies' response to I/R PULP-04.

Response:

The decline in participation in the Elderly, Blind & Disabled Program in KEDNY has followed a steady rate of decline since 2015, despite continued promotion and marketing of the program. The Companies are not aware of any particular reason for the decline in participation, but the decline could be attributable to changes in eligible populations and households.

As for changes in the eligible populations, it would require reliable third-party data to determine whether the KEDNY service territory has seen a decline in households that are made up *entirely* of elderly, blind, and/or disabled residents. Trends that might cause a decline in eligible households could include any increase in non-senior children living with elderly parents, or any increase in the rate of senior couples moving into care facilities.

As for eligible households, the COVID pandemic may have suppressed participation due to the moratorium on field collections and service terminations. Arrears forgiveness programs such as RAS, ERAP and the NYS Arrears Forgiveness Program may have lessened the urgency for eligible households to participate.

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please describe how residential customers are determined to be heating versus non- heating customers.

Response:

The Companies determine whether residential customers are designated as heating or non-heating customers based on the customer's residential heating or non-heating delivery rate, which is designated by the customer as part of the service application process set forth in each Company's respective tariffs. Please also see the Companies' responses to PULP-026 and UIU-08.

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please provide all training materials, internal policy documents and other relevant communications pertaining to situations in which residential customers contacting the Company indicate that they have experienced or are currently experiencing domestic or intimate partner violence.

Response:

Consumer Advocates support the Companies' most vulnerable customers by connecting them with programs and services offered by the Companies and service organizations within their communities. They assist customers who have special circumstances such as domestic violence. If a Customer Representative or Consumer Advocate receives a report of domestic violence, the Companies notify the police and the NY State Department of Social Services. There are no written procedures specifically for domestic violence.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

If a KEDNY customer wishes to apply for a deferred payment agreement ("DPA") with more lenient terms than those offered in either the "Specific HEFPA DPA", "General HEFPA DPA" or "Extended Payment Plan" by completing a financial statement online, are they required to log into their United Web Portal account to do so?

Response:

KEDNY customers wishing to apply for a Minimum DPA (not Specific, General, or Extended) may complete a financial statement online, and they are not required to log into the Unified Web Portal to complete this statement. The Online Financial Statement is generally provided to the customer when on the phone with an agent discussing payment options. The agent sends the customer a solutions email with the following link included: https://www.nationalgridus.com/Financial-Statement-Calculator-NYC. The customer can upload their proof documents within the form and, once submitted, the form and proof are emailed to the back-office team for review. KEDNY customers may also go to the customer office to complete a financial statement in person or receive documents via paper mail.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

43. Attachment 2 of the Companies' response to I/R PULP-09 provides a suggested script at PDF 128 that KEDLI customer service representatives ("CSRs") are instructed to read to KEDLI customers explaining the options available for addressing their KEDLI payment issues. The suggested language is as follows:

We offer three repayment programs:

1. A short-term Collection Arrangement that will assist with paying the balance in full within 36 to 40 days with flexible installment amounts you choose, and will require a 25% down payment to start. Late payment charges of 1.5% per month will continue to apply.

2. A Standard Deferred Payment Agreement is a longer-term monthly repayment plan which requires 15% of your full balance as a down payment , the remaining balance to be paid in equal monthly installments, plus your current bill each month. This agreement requires you pay the down payment, sign and return the agreement within 10 days in order for it to be activated.

3. A More Lenient Deferred Payment Agreement (Minimum) is offered to customers who are able to demonstrate financial need. A down payment is not required and installments may be as low as $10 per month plus your current bill. To apply for a more lenient deferred payment agreement, you will need to provide documentation of your income and allowable household expenses.

Please read the following script prior to completing every financial statement:

"In an effort to assist you with payment options, I would like to complete a financial statement by asking you a series of questions regarding your income and expenses. Please provide actual figures from the last 30 days as you will be required to send supporting documents."

Please provide any equivalent scripts that KEDNY CSRs are instructed to read to KEDNY customers explaining the options available for addressing their KEDNY payment issues.

Response:

43. Attached are the scripts that KEDNY CSRs use to explain customers' options for addressing payment issues, including referrals to Home Energy Assistance Program (HEAP) and Human Resources Administration (HRA) financial assistance programs.

Attachment 1 - HEAP Tip Sheet NYC
Attachment 2 - HRA Agency Referral Script - NYC

HEAP Tip Sheet - NYC

Summary

We encourage all residential customers to apply for all the Home Energy Assistance Program (HEAP) benefits they are eligible to receive during the HEAP Season regardless of whether they heat with National Grid.

Customers are eligible to receive the low-income program, the Energy Affordability Program (EAP), which is a monthly credit with proof they receive HEAP with another utility. **Customers must be income eligible to receive HEAP, reference HEAP Income Eligibility Guidelines.**

- As soon as a HEAP payment is applied to a customers account, the account is automatically enrolled in the low-income Energy Affordability Program (EAP).
  - Based on the level of income, and the amount of the HEAP payment received, qualified customers are placed in an EAP tier which determines their monthly bill credit.
  - Customers enrolled in EAP with no past-due balance at the time of enrollment, will automatically be enrolled in Budget Billing with an opt out option available.
- Customers that receive a HEAP grant for another utility will be identified via a file match from Human Resource Administration (HRA).

It is important to understand how HEAP works because we want to avoid giving customers false hope about receiving HEAP on their bill in cases where they may not be eligible.

Customers should always be directed to continue paying their bills as normal to avoid possible service interruption. For customers who have already applied for HEAP and are looking to check the status of their grant - refer to the Already Applied for HEAP tab for more information.

HEAP - Application/Checklist - NYC

Scripts

HEAP Basic Program *(Opens November 1, 2022)*

"Are you interested in hearing about bill credits that may be available to you to offset your utility bill?"

- **If yes:**
  - ***"The Home Energy Assistance Program or HEAP is a Federal Program available to qualified customers to assist in paying their home heating bill - More information can be found on our website ngrid.com/discount.***
  - ***Applications can be done on-line.***
  - ***The money is applied to your account no strings attached and this also qualifies you for monthly discounts to your National Grid bill for 14 months.***
  - ***There is a single application for both programs, I would suggest applying sooner rather than later as spots are limited for this popular program."***
- **If no:**
  - ***"Ok. Not a problem, however, I do want to inform you that the Home Energy Assistance Program may be something you qualify for.***
  - ***More information can be found on our website ngrid.com/discount."***

Emergency HEAP Program *(Opens January 3, 2023)*

NOTES:

- Customers that are in disconnect status do not need a physical disconnect notice to apply for Emergency HEAP.
- Customers can call their local HEAP office and request the Emergency HEAP grant provided they have been approved for Regular HEAP for the current heating season.
- NYC's Human Resource Administration (HRA) receives a weekly Excel file of customers that are in disconnect status to confirm if a customer has a disconnect notice without a physical copy.

For Customers with a valid disconnect notice or whose service has been CONP'd

- ***"Were you aware that if you already have been approved for Regular HEAP for this heating season , an Emergency HEAP grant can offset some of the balance and allow us to offer additional assistance in addressing the disconnect notice or with the promise of an Emergency HEAP grant we can issue an order to restore the service within 24 hours ?"***
  (if the customer received regular HEAP, then they would already be getting the bill credit).
  - **If yes:**
    - ***"Emergency HEAP is a Federal Program available to help qualified customers experiencing a utility emergency (disconnect notice or CONP) - More information can be found on our website ngrid.com/discount.***
    - ***The money is applied to your account no strings attached and this also qualifies you for monthly discounts to your National Grid bill for 14 months.***
    - ***Contact the Human Resource Administration (HRA) office to apply.***
  - **If no:**
    - ***"Ok. Not a problem, however, I do want to inform you that the Emergency HEAP program may be something you qualify for.***
    - ***More information can be found on our website ngrid.com/discount."***

Program Information

HEAP Basic Program *(Opens November 1, 2022)*

The Home Energy Assistance Program (HEAP) is available to income eligible (low income) customers to help them pay for their home heating costs.

- The HEAP program is a federal grant and does NOT have to be paid back.
- If customers are told they cannot get HEAP because they have an outstanding DSS loan that is false and a National Grid Consumer Advocate can assist.

You don't need to be behind on your account or have an account balance to apply for Regular HEAP!

Your household may be eligible for a Regular benefit:

- Have gross household income that falls within the HEAP guidelines, or
- Receives assistance from SNAP / Food Stamps, Temporary Assistance or Code A Supplemental Security Income (SSI Living Alone)
- Have household members that are US Citizens or qualified aliens

Add-on benefits are provided to:

- Customers with a vulnerable household member - under 6, age 60 or over or permanently disabled $35
- If household income is in the Tier 1 range - $41

Emergency HEAP Program *(Opens January 3, 2023)*

You do need to have an emergency to qualify for Emergency HEAP - meaning you have to meet the HEAP qualifications and have a utility shut-off notice or be currently shut-off.

DO NOT Place a Hold on the Customers account, a hold in cases of E-HEAP will not indicate there is an emergency need to the counties when the Customer applies for the assistance.

Your household may be eligible for an Emergency benefit:

- The electric is necessary for the heating system or thermostat to work and is either shut-off or in threat of shut off.
- The electric or natural gas heat is shut-off or scheduled to be shut-off
- If a customer is out of fuel, or they have less than one quarter of a tank of fuel, kerosene or propane, or have less than a 10-day supply of wood, wood pellets, corn or other deliverable heat source

And

- Household income is at or below the current income guidelines or they receive Family Assistance, Safety Net Assistance, SNAP/Food Stamps or Code A Supplemental Security Income (SSI)
- The heating and/or electric bill is in the customers name
- Household available resources are
  - less than $2,000 if no member of the household is age 60 or older; or

- less than $3,000 if any member of the household is age 60 or older

In the rare case that additional time is needed - for customers to return paperwork for HEAP, **DO NOT place a hold on the customers account -** please advise customer to contact their Local HEAP District Office.

Applying

Where to apply

Customers can apply for HEAP at their HEAP Local District Office

- Please visit the New York State Office of Temporary and Disability Assistance website at www.otda.ny.gov/programs/heap/ to determine how you can apply in your area.
  - For more information about HEAP and other programs you may be eligible for please visit www.mybenefits.ny.gov.
  - If you do not have computer access, contact the New York City Human Resources Administration as they will assist you in qualifying for heating assistance.
  - Please call the New York City DSS/HRA HEAP unit at 212-331-3126
    - NYC HEAP Office Locations:
      - In Brooklyn - 3050 West 21st Street, 3rd Floor, Brooklyn NY 11224
      - In Queens - 33 - 28 Northern Blvd, Long Island City (Mezz Level)
      - In Staten Island - Borough Hall, 10 Richmond Terrace (Room 422A) St. George

Information required to apply

Please advise Customers when applying for HEAP to bring the following information:

- Current National Grid Bill (or other fuel bill)
- Final Disconnection Notice or other Shut-Off Notice **(if after January 3, 2023 and applying for Emergency HEAP)**
- Recent pay stub or other proof of your household's total gross income
- Proof of Residence (Tax Bill, Lease, Deed, or Rent receipt showing your address)
- Documents identifying each household member (birth certificates, social security cards, school records or drivers licenses)

HEAP DPA Steps

Please refer to the Residential DPA Guidelines - NYC for Payment Agreement options.

Already applied for HEAP

Customer Checking on Application

- Explain to the customer, depending on the county and the volume of customers they serve, it can take a month or more for some counties to process HEAP applications and notify utilities.
  - **NOTE: Counties get 30 business days to process, and then it can take several more weeks for the payment to be sent to the utility.**
- Customers receive a HEAP award letter in the mail from NYS HEAP once their HEAP grant has been approved.
- We only want to refer those customers with shut off notices/disconnection notices or those that have applied over a month ago; back to their local HEAP office, as doing so just pulls the HEAP workers away from processing the HEAP grants.

Follow these steps to assist the customer

1. Ask the customer when they applied for HEAP.
   - If it has been less than a month and there is no shut off notice/disconnection notice, ask the customer to give their local HEAP office time for processing.
   - Let them know if they do not hear within a month or if they get a National Grid shut off notice it is then that they should go back to their local HEAP department:
     - Customers that need to reach HRA should call: (212-331-3126) during business hours.
       - They can call 311 after hours or for life-threatening situations, 911.
2. Look to see if a HEAP payment has recently posted to their account.
   - If one has, share the date and amount of HEAP payment with the customer.

3. Customers that need to reach HRA should call: (212-331-3126) during business hours. They can call 311 after hours or for life-threatening situations, 911.

4. You can let the customer know – if they are not receiving help they can reach out to our National Grid Consumer Advocates at: www.ngrid.com/consumeradvocates or you can refer: Consumer Advocacy Procedure | National Grid (nationalgridus.com)

Application Denied

If a customer has been denied and feels it is in error, refer to Consumer Advocacy Procedure.

HRA Agency Referral Script - NYC

Summary

The following is required scripting when a customer is not eligible for a Minimum (More Lenient) DPA and needs to be referred to a Temporary Assistance Agency.

Content Owner	Aramis Cornier - Credit & Collections
Last Audit by Content Owner	12/21/22
Last Modified	7/12/23

Script

"After discussing your circumstances and reviewing payment options, at this point in time, unfortunately there are no options available to meet your specific needs. I know having a disconnect notice is stressful and I do want to help you. I can complete a Financial Statement (if one has not been completed in the last 30 days) and refer you to Human Resources Administration (HRA) . They can determine if you qualify for an Emergency Temporary Assistance payment that would assist in keeping your service on. Would you like me to do that today?

Temporary Assistance *(open year-round)*
May be available if you are experiencing a utility emergency (shut off notice), have exhausted all the HEAP you are eligible to receive or if HEAP has closed for the season or if you are a non-HEAP eligible customer with extenuating circumstances and have defaulted off a payment agreement with National Grid and have no payment agreement options left. The National Grid customer representative will take a Financial Statement with you and will refer you to your local Department of Social Service County.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: PULP Set 8

Request:

The Companies' response to I/R PULP-25 shows that an average of about 22,000 regular HEAP grants were applied annually to KEDNY accounts from 2018 through 2022, but the August 2021 "Low-Income Workbook" filed in Case 14-M-0565 indicated that there are about 66,000 heating gas participants in KEDNY's EAP.

Request:

Please explain why there is such a large difference between the average number of KEDNY customers receiving regular HEAP and the number of heating participants the Company reported to DPS for the August 2021 Low-Income workbook calculations, after taking into consideration the Company's observation in its response that "the fluctuation in KEDNY grants is related to timing of when grants are received".

Response:

The August 2021 KEDNY Low-Income workbook heating participant number represents the number of EAP heating customers at a specific point in time used for the prescribed annual EAP discount recalculations. The difference between the approximately 22,000 average number of KEDNY regular HEAP grants applied annually and the approximately 66,000 KEDNY gas heating customers in the workbook may be attributed to the fact that customers being enrolled in EAP for 14 months may cross over calendar years without having received an additional HEAP grant yet. Additionally, regular HEAP grants received by the Company are only one of the mechanisms by which customers may be enrolled in the EAP. Under the Company's Energy Affordability Credit ("EAC") tariff filing, customers may participate in the program through any the following:

- Regular and/or Emergency HEAP grant
- Non-Utility HEAP Benefit

- Self-identified or File Match
- DSS Direct Voucher or Guarantee

Therefore, regular HEAP grants are not the only qualifier for the Energy Affordability Program.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: PULP Set 8

Request:

The Commission's Order in Cases 19-G-0309 et al., at 183, included adoption of the following provision of the Joint Proposal:
"In addition to implementing E-DPAs, KEDNY would no longer require customers to come into a KEDNY Customer Office to provide documentation for a DPA."
The Companies' responses to I/Rs PULP-09 and PULP-11 included the following involving deferred payment agreements ("DPAs"):
I. Response to I/R-PULP-09, Attachment 1 at 57:
"Note: If the residential customer claims a hardship, the customer can go into one of our District Offices or go online to our website to complete a 3596 form to see if they qualify for a minimum DPA. https://www.nationalgridus.com/Financial- Statement-Calculator-NYC"
II. Response to I/R-PULP-09, Attachment 1 at 59:
"The terms that can be offered to the customer appear in this screen. If the customer wants terms that are easier to pay then the terms displayed in this screen, they must be referred to the Customer Office or web to complete a Financial Statement (Form DSS3596)."
III. Response to I/R-PULP-09, Attachment 1 at 61:
"Note: If the customer wants to renegotiate the DPA, the customer must visit a Customer Office with the appropriate documentation or fill the Financial Hardship application on the web."

Requests:

a. For each of the above situations (I., II., and III.), please state all other options that KEDNY customers seeking to obtain DPAs requiring completion of financial statements have for doing so, other than by completing such forms "on the web."

b. For each KEDNY Rate Year in Case 19-G-0309 thus far, please provide the number of DPA financial statements obtained from customers through the following methods:

   i. In-person at a Company office

   ii. Online

   iii. Telephone

Response:

a. Currently, customers are able to complete a financial statement via the web or in person at one of our walk-in office locations. There are no other options at this time.

b. i. In-person at a Company office: The Companies started tracking the volume of financial statements completed in the office in May, 2022.

- FY23: 194
- FYTD24: 72

ii. Online

- FY21: 1,053
- FY22: 288 – Middle of COVID, the Companies did not require Financial Statements for customers to get on a Minimum DPA
- FY23: 1,417
- FYTD24: 526

iii. Telephone: Not applicable as CRS does not have a built in Financial Statement capabilities as CSS does.

SUBJECT: PULP Set 8

Request:

The Companies' response to I/R PULP-28 indicated that they used "externally purchased data relating to presumed income level and household size" for their February 2023 analyses of low-income households in their service areas.

Requests/Questions:

a. Please clarify whether or not "presumed income level" in the purchased data means presumed income level for the household and, if it does not, what it represents.

b. Please provide the source used in the purchased data that is the basis for its estimates of "presumed income level" and "household size", including the "as-of date" (for example, U.S. Census Bureau American Community Survey for 2021).

c. Please provide any documentation accompanying the purchased data that describes its methodology.

Response:

a. The “presumed income level” in the purchased data means presumed income level for the household.

b. The Company purchased the data set from Data Axle. The information included data as of January 9, 2023.

c. The information accompanying the purchased data describing the methodology is provided below. The vendor requires this information to be treated as confidential, protected trade secret information due to the source and development of the purchased data.

TO: National Grid

SUBJECT: PULP Set 8

Request:

Regarding the Companies' proposal to utilize near off-shore Spanish call centers for certain customer service functions, do the Companies propose to provide any training for representatives at these locations that specifically addresses the needs of KEDNY/KEDLI customers (e.g., KEDNY/KEDLI collections policies and procedures)?

Response:

Yes, the Companies plan to deliver identical training that is provided to all new hire employees for representatives at these locations specific to the rules, regulations, and processes for KEDNY/KEDLI customers. Please see response to PULP-09 where we previously provided all our collections training materials.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: PULP Set 8

Request:

In follow-up to I/R PULP-32, PULP performed an analysis of a hypothetical situation in which the mid-point of the "total annual bill range" on Attachments 1 and 2 represented the actual total annual bill for each customer at each usage level during the Rate Year. PULP then calculated a hypothetical total billing for all customers at each usage level during the Rate Year. PULP's analyses are included as PULP-50 Attachment 1.xlsx.

Question:

Assuming this hypothetical scenario were to transpire in the Rate Year, would the totals for KEDNY and KEDLI that PULP calculated be a reasonable representation of the total number of customers and their associated negative total annual bills? If not, please state why not and provide a detailed explanation, including any supporting workpapers.

Response:

Upon further review of the customer count data provided in Attachments 1 and 2 of the Companies' initial response to PULP-32, the Companies are submitting PULP-32 Supplemental to update the information provided in those attachments. Please see PULP-50 Attachment 1 (Updated), which reflects the updated EAP customer counts that were provided in the Companies' response to PULP-32 Supplemental. With these updated customer counts, the Companies believe that the calculations shown in PULP-50 Attachment 1 (Updated) are a reasonable representation of the total number of customers and the associated negative total annual bills.

KEDNY KEDLI Case No. 23-G-0225/0226Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: PULP Set 8

Request:

In follow-up to PULP-24, please provide the same data furnished in PULP-24, Attachment 5 and Attachment 6, updated to reflect 2020 Census Tracts.

Response:

Please see the following attachments containing listing of census tracts within KEDNY and KEDLI's service territory, respectively.

- Attachment 1 contains 2020 Census Tracts in KEDNY Service Territory
- Attachment 2 contains 2020 Census Tracts in KEDLI Service Territory

The same process was used as was performed in Attachments 5 and 6 to PULP-024 with updated 2020 census tract data. A combination of public census tract data and the most up to date service territory maps were used to create the list of census tracts in an Excel file. Data for census tracts were sourced from Data.Gov and were defined by 2020 US Census Participant Statistical Areas Program. Please note that Companies' service territory boundaries do not perfectly align with census tract boundaries and therefore some census tracts included in the list are only partially located within the service territories. Census tracts below 0.018 square miles in KEDNY and 0.05 sq. miles in KEDLI were removed as they were mostly caused by border overlaps.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please provide the monthly number of participants in each of the Companies' EAPs for July, August and September of 2019, 2020, 2021 and 2022.

Response:

The Companies' low-income reporting was filed on a quarterly cadence for the time frames requested and included the point in time EAP participant count at quarter end. The tables below represent the monthly number of EAP participants captured point in time from reports available based on revenue month rather than calendar month.

KEDNY Participants				
	2019	2020	2021	2022
July	137,974	157,704	150,902	149,823
August	167,071	155,012	148,525	161,394
September	155,987	148,393	148,548	143,903

KEDLI Participants				
	2019	2020	2021	2022
July	12,503	10,636	13,462	12,692
August	11,790	11,083	13,439	13,069
September	11,621	11,019	13,049	13,807

SUBJECT: Customer Service Panel

Request:

Please describe any additional policies and procedures the Companies have adopted to safeguard customers against service termination during cold weather periods, aside from those required in 16 NYCRR § 11.5(c)(2).

Response:

Please refer to UIU-43 for any additional policies and procedures the Companies have adopted to safeguard customers against service termination during cold weather periods, aside from those required in 16 NYCRR § 11.5(c)(2).

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Jillian Kasow

TO: National Grid

SUBJECT: National Grid (KEDNY KEDLI)

Request:

Do the Companies currently have any additional cold weather protections in place other than those in HEFPA that they must comply with? If so, please explain.

Response:

The Companies voluntarily comply with additional cold weather protections other than those in HEFPA. Annually, National Grid has agreed to additional protections requested by the Department of Public Services (PSC), local service agencies, and other groups to the following voluntary winter measures regarding terminations for non-payment, including:

- For the period from November 1 through April 15, the Companies will accept all Home Energy Assistance Program (HEAP) payments and provide the customer with continued or restored service regardless of the amount due and/or the customer's payment status. The Companies' Customer Advocate outreach programs will continue with focus on HEAP, fuel funds, and the Energy Affordability Program.

- During the Cold Weather Period, the Companies will consider any Regular and/or Emergency HEAP payment as entitling the applicant to a fair and reasonable Deferred Payment Agreement, regardless of any previous DPA defaults.

- The Companies refrain from scheduling residential service terminations on days when the local weather forecast predicts below-freezing temperatures.

- The Companies establish a voluntary moratorium on winter terminations for customers who are elderly, blind or disabled.

KEDNY KEDLI Case No. 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please provide the current number of residential EAP customers for each Company by census tract in which it provides service based on the 2020 census. If such data for 2020 is not available, please provide the data based on the 2010 census.

Response:

Neither Company maintains the requested data for residential EAP customers by census tract in which it provides service for either the 2020 census or 2010 census, nor could it be reasonably accessed or produced.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

Please explain what steps the Companies have taken to date, for the purpose of implementing Chapter 517 of the Laws of 2021, which requires the release of individuals from utility corporation services in instances of domestic violence.

Response:

The Companies' Consumer Advocates support our most vulnerable customers by connecting them with programs and services offered by the Companies and service organizations within their communities. They assist customers who have special circumstances such as domestic violence. If a Consumer Advocate receives a report of domestic violence, they will notify the police and local county Department of Social Services (DSS).

The Companies do not allow for joint ownership of accounts. A primary account holder can close their account at any time. Additionally, if a primary account holder has authorized a secondary party to make changes on the account, they can remove that secondary party at any time. Likewise, the secondary party may remove themselves at any time. The secondary party has no financial responsibility related to the account.

The Companies are currently working on adding information regarding survivors of domestic violence to our website. The intent is to inform survivors of the law and make them aware that National Grid has options available to work with them in their unique circumstances.

KEDNY KEDLI Case 23-G-0225/0226 Data Requests

Request for Information

FROM: Andrew Saavedra

TO: National Grid

SUBJECT: Customer Service Panel

Request:

In follow-up to I/R PULP-57, please provide a copy of each Company's current Domestic Violence Attestation Form.

Response:

As described in the response to PULP-57, the Companies do not allow for joint ownership of accounts (or "shared contracts" under PSL Section 48-a). A primary account holder can close their account at any time. Additionally, if a primary account holder has authorized a secondary party to make changes on the account, they can remove that secondary party at any time. Likewise, the secondary party may remove themselves at any time. The secondary party has no financial responsibility related to the account.

The Companies' Consumer Advocates provide support to victims of domestic violence by connecting them with programs and services offered by the Companies and service organizations within their communities. If a Consumer Advocate receives a report of domestic violence, they will notify the police and DSS.
